Coast Guard Wives Welfare Association
Explanation of Logo

The CGWWA (Coast Guard Wives’ Welfare Association) has an emblem of its own, which was designed in 1996. The logo of Tatrakshika is embedded in the midst of blue, representing the vast skies, seas and oceans. Our logo too has adopted a tinge of the same blue, in a spirit of camaraderie with our men.

The CGWWA logo depicts the faces of three women; representing the multifaceted Tatrakshikas, who, while assuming different roles & responsibilities in society, work together cohesively to improve the quality of life within the Indian Coast Guard community.

MESSAGE

The exemplary role played by our ‘Tatrakshikas’ with warmth, care and humility in their stride is outstanding, and a bedrock of support for our families. Their resolute commitment and vibrant support to the men and families of Coast Guard in particular and society in general, has been crucial for achievement of the organisational and national goals; our personnel derive their innate strength from this strong pillar of support.

The canvas of Coast Guard Wives Welfare Association (CGWWA) activities is wide and multifarious. Their contribution to women empowerment, skill development, humanitarian efforts and education are in tandem with the Hon’ble Prime Minister’s vision of “Beti Bachao, Beti Padhao”. I am happy to note that CGWWA is taking giant strides for realization of this goal.

The support system and positivity of CGWWA, especially at remote stations is truly inspiring. High motivation levels of our personnel in such stations coexists with the well-being of their spouses and families, which is so effectively being managed by CGWWA. The fact that such efforts are voluntary, speaks volumes about the commitment, dedication and enthusiasm of the ladies of CGWWA.

CGWWA has admirably kept pace with the expansion and growth of the Service and also retained the flexibility to evolve with the passage of time. In times to come, our Tatrakshikas will more than measure up to the challenges as hitherto and will continue to provide succor and serve as the supporting arm to Coast Guard families and the society.

My compliments to the editorial team of ‘Urmì’ for bringing out an informative, interesting and immensely readable book covering the entire range and array of readers. The publication truly is a reflection of CGWWA resolve and efficiency.

I wish CGWWA all the very best in all its efforts and unflinching support for success in all its noble and selfless endeavours.

URMI quintessentially reflects the dynamic face of Tatrakshika. It is with great pride and humility that I write down my first message as Vice President for our annual magazine.

I have always felt it as an honour to be part of CGWWA, a vibrant and multifarious organization, and have cherished seeing it growing & evolving over the years.

The role and responsibility of CGWWA has been constantly changing over the years. Our endeavour, therefore, has been to keep abreast with the changes in our society and tailor our welfare activities as per the growing needs of the community.

We have been working undauntedly towards women empowerment, welfare and community support, education, health care, social welfare and environmental conservation. Our constant efforts have ensured that CGWWA is responsive to both social as well as environmental issues. Let us continue our good work cohesively and contribute positively towards shaping not only our organization but our nation as well.

URMI not only exhibits the wide spectrum of activities undertaken throughout the year but is also a medium to showcase the literally skills of our fraternity.

*Kudos* to team URMI and the Sanchar teams in all Regions for their collated effort towards the magazine and weaving the tapestry of Tatrakshika so beautifully.

*Jai Hind.*

(Mrs Jyoti Murthy)
Vice President Tatrakshika
MESSAGE

I take immense pride and pleasure to convey my heartfelt greetings to all readers of URMI which is a time reflection of the spirit of CGWWA.

I, as Tatrakshika President (WS) feel privileged to be part of this organisation which has been instrumental in instilling confidence, vibrancy and independence in our women.

I, on behalf of all members of the Northwest and Western Region compliment the editorial team for their timeless effort in bringing out 2016 edition of URMI successfully.

I extend my best wishes to all the members of our CGWWA family.

Jai Hind!

MESSAGE

The CGWWA organisation has grown over the years and has contributed immensely in social activities, health care, education and welfare. The Tatrakshikas have now become active participant in all walks of life. The modern women are working in various capacities and in all professions.

There are newer heights to be scaled and challenges ahead which, I am very sure, all of us together will accomplish. The URMI has always been a source of inspiration for the CGWWA fraternity which collates interesting thoughts and true expressions. It gives us the glimpses of activities undertaken in the year gone by.

I complement and congratulate the Editorial team for their laudable efforts in putting together an absorbing and presentable edition of URMI.

MESSAGE

Let me begin with the success story of “Women Power” at RIO 2016 where PS Sindhu and Sakshi Malik have made us all proud. Women of today are leading in every field, be it entrepreneurship, corporate heads of Fortune 500 companies or social, political and economical institutions.

The past one year of CGWWA has been a journey embraced with wonderful and rich experience where Tatrakshika’s passion and motivation has honoured all social responsibilities and welfare activities with commitment and elan. Let us walk ahead into future with confidence and self respect to be an achiever while donning the mantle of home maker.

All compliments to the “URM!” editorial team for bringing out this informative edition on women power to Tatrakshika’s and boost their morale high for overall development of the society.

Best wishes & warm regards.

President Tatrakshika(A&N)
MESSAGE

It is indeed a privilege for me to pen down the message for URMI on behalf of CGWWA in the Western Region as the Indian Coast Guard enters into the 40th year of its existence.

It’s been a delightful run, and I’d like to thank all ladies who have been with us all the time, those that came along for part of the voyage, and also those who joined us later and are still with us. The Western Region could not have achieved this without support of each and every member.

My heartiest felicitations to all the Tatrakshikas for their continued and tireless efforts in bringing the CGWWA to newer heights by their valuable suggestions and whole-hearted participation in all the activities of the Region and sincerely expect the same in future also.

URMI is a worthy magazine - one that adheres to the principles and guidelines of the Coast Guard fraternity, and reflects the vitality of this special community. Each edition of URMI has always been a platform for expressing, sharing and cherishing each other’s thoughts and views. It also marks our growth, unfolds our imaginations, and gives strength in our quest to achieve our collective objective of community welfare and better education to our wards.

I congratulate the efforts of all the participants and editorial team for their efforts in bringing out this enriched issue of URMI with artistic contents and vibrant graphics.

I believe women are the real architects of the society and can achieve newer heights with dedication and hard work.

Let's work together to enable and empower Coast Guard families to live their best lives.

“You are strong, beautiful, compassionate much more than words could say! Today is yours, as any other day”

MESSAGE

It gives me immense pleasure in posting my message for Urmi which is an excellent medium to connect the whole Coast Guard fraternity.

CGWWA is a wonderful treasure of the Coast Guard Organisation which keeps us all bound in a single strand, and supports us to scale new heights of success. It must be our vision to bring change, with our in-borne creativity and ideas for self and society at large.

This year has been full of activities and programmes. Tatrakshika (East) continues to remain vibrant and engaged in institutionalizing many welfare programmes towards the overall development of Coast Guard ladies and children. We have been able to contribute effectively towards various social causes within and outside CG family. Going by the adage "Charity begins at Home", this year the outreach activities within the CG fraternity will be one of the main focus areas of CGWWA (East).

I would like to compliment the efforts of the entire Tatrakshika family in keeping up the spirit of making lives of CG families more wholesome and enriching. I wish the annual edition of ‘Urmi’ all the very best.

(Mrs Nidhi Bargotra)
President Tatrakshika (East)
MESSAGE

In Mother Teresa’s words “Not all of us can do great things, but we can do small things with great love”. In total agreement, as I glanced upon earlier editions of Umri, it was evident that our efforts are becoming meaningful. Over the years of churning, this publication has become synonymous to the pride that womenfolk earn all around the pristine white. The love and affection earned amongst our family and friends continues to be reflected here. This love is what we earned, as women in the society and as Tatrakshikas amidst the fraternity. Undoubtedly, Umri has been unaltering and gaining momentum with every unison she makes with waves of similar disposition. In this progressive move, we celebrate the aura of CGWWA, an amalgamation of talent and initiative. With head held high and spirits beckoning, I offer a salute to women and their indomitable spirit.

From the new found desk, a fresh responsibility drives my expressions as I post “Shubhkamanayen” to the new edition. In ensuring this, the misty aroma from the soil of Gujarat and the fragrant monsoon showers, also sprinkle their presence. May the aura multiply manifold as the publication traverses all along the coastal belt, rekindling every family associated with the Indian Coast Guard. It is a matter of eminence to keep the pace of unceasing flow with every edition, aiming at building a fanfaronade within and beyond. My contribution in such poetic cause is thus purely by choice.

We Tatrakshikas as women of strength are to provide able support by shaping the home front, guiding the children and also contributing voluntarily towards the society so that the man of the family could look after the interest of the nation with devout focus. May the good work reach places and reignite the flair of those and gauge the interest of readers connected through this publication.

Happy reading.

(Mrs Dipa Pal)
President Tatrakshika (North West)
Esteemed readers,

At the outset, accept our gratitude for sparing your valuable time in lacing this magazine with appreciative doses of enthusiastic and exciting inputs.

It is said, ‘For every two minutes of glamour, there are eight hours of hard work’. Everything comes at a price. Glamour outrightly defies age and circumstances. Glamorous dreamers, the trailblazers, see their dreams with eyes wide open and pursue them with the three Ds of discipline, determination and dedication and the two Ps of passion and perseverance. We, the Tatrakshikas too are glamorous, in our own way. The multifarious activities of CGWWA being managed by us are good adjudicators to this fact and also the fact that we are pragmatic enough to face the blitz of challenging opportunities with sheer optimism.

Isn’t it amazing that we all hail from diverse backgrounds and yet have developed bonds of trust and affection? We have learnt to handle disappointments and confront pressures by mutual caring and sharing. This healthy attitude is visibly reflected in “Urmii”, the in-house communiqué of CGWWA.

Today, I occupy this honored seat with a broader smile and a heavier pride smelling a sense of exhilarating gratification, as we emerge stronger with our own President at the helm of Tatrakshika and with our own Director General as the distinguished head of Indian Coast Guard, ever since its inception, as it embarks powerfully into its fourth decade.

This year’s ‘Urmii’ unfolds a record of laudable occurrences of the past year which will find you immersed in a world of various crayons, reflecting the mirror images of perplexingly creative geniuses. Feel our joys, the thrill of challenges, the concerns of our collective learnings, the wonders of creative talents and celebrations of the year, while journeying through the pages of ‘Urmii’. We also find young talent being nurtured in the protective wings of the dignified men in uniform, waiting to soar into the sky. ‘Urmii’ is the culmination of our synergies.

The spirit of the team members and continued assistance and encouragement from the President, Tatrakshika, Smt. Urmila Singh and the Vice-President, Tatrakshika, Smt. Jyoti Murthy is awesome! Also, the support provided by men behind the pages is deeply revered with gratitude.

Beware! This gurgling ‘Urmii’ is going to sweep you off your feet with its tempting and wavy itinerary! However, neither desist nor resist. Just flow and enjoy in your own rhythm...

THE FLIGHT OF COURAGE/HONSLON KI UDAAN

If today’s woman has reached her zenith, be it in any sphere, it should be remembered that her passion, dreams and her intense courage have worked as the launch pad. For, very few women have godfathers to fall back on. Creative instincts have found new expression. She has carved a niche for herself and is bold enough to venture further on the strength of her lofty ideals and sheer self confidence and innate positivity.

Today’s woman of fire, has ventured into earth, water, space and the sky.

GOOD HEALTH OR JUNK

Why do I like junk food so much, I wonder! Is it actually so delicious that is makes us forget ‘Maa ke haath ka khana’ or is it just the hype around it that makes it such a hit among children and grown ups alike?

Junk foods do no good to our body and are rather completely unimportant to the body. They have no or very less nutritional value and irrespective of the way they are marketed, they are not healthy to consume. The only reason of their gaining popularity and increased trend of consumption is that they are ready to eat or easy to cook foods. Therefore, they are also known as fast foods. Also the ease of manufacturing and consumption makes junk food market spread its influence so rapidly. Many famous restaurants show their advertisements on TV to promote and popularize their food, introduce new offers and food items. They also distribute pamphlets with discounts and offers to attract people. Some also give false information about the nutritional values of the food items. There are advertisements in newspapers too. There are food magazines also which give details of emerging cuisines, junk joints etc. Increasing number of food based television shows also influence viewers.

People all over the world know that junk food is not healthy at all but still we see crowds at junk joints and restaurants and the reason for this is their marketing which leads to their popularity. The junk food market should be curbed and instead healthy foods should be promoted.

I myself had felt trapped in the vicious circle of junk food. Fortunately, I realized its harmful effect soon. Nowadays, healthy alternatives are emerging. They taste and look like junk food but have healthy ingredients in them. They are healthier and build up our body. I have started consuming these alternatives more than junk food. It is in our hands to decide whether to crave for junk food or for a healthy and happy life.

ORAL HYGIENE: A GUIDE TO SMILE YOUR WAY!

‘Smile is a curve that sets everything straight’. Yet we all dread a visit to the dentist. Let’s get to know some facts about oral hygiene and make our visits to the dentist more pleasant.

Oral hygiene is the practice of keeping our mouth & teeth clean. Good oral hygiene prevents dental problems such as dental caries, gingivitis and bad breath. Three most important steps to maintain good oral hygiene are:-

1. Brushing
2. Flossing
3. Use of mouth wash

Good practices:-
1. Brushing twice a day especially at night with a soft toothbrush.
2. Change toothbrush when the bristles becomes frayed.
3. Rinse with antibacterial mouthwash/chew sugar free gum after meal.
4. Eat healthy foods e.g. green tea, onions, and vegetables.
5. Teach children the right technique of brushing.
6. Visit dentist every 06 months for a preventive checkup.
7. Flossing help to remove food particles lodged between teeth.

Bad practices:-
1. Thumb sucking causes mal-alignment of teeth.
2. Using hard bristled tooth brush and applying ore pressure while brushing.
3. Using your teeth to open bottles.
4. Chewing tobacco.
5. Smoking causes staining of teeth.

Keep Smiling!!

POWER BEHIND THE GUARD

You don’t write when you have to say something, you write when have something to say… and today I have a lot to say….a lot about Indian Coast Guard, the three words which have the power to enthrall you with its adventurous pursuit.

Our transferable jobs, ship’s life, aviation service, shore posting, prestigious courses, Temporary duties…all this inspires us to be stronger than yesterday & compared to how strong we are today, yesterday seems easier.

This spirit is not confined to the Coast Guard personnel, it extends to the families as well… Whenever you marry a Coast Guard employee, you marry Coast Guard too… and you are proud to accept all the challenges & tackle them with a smile. Going on similar lines, here I take you to a pacifying tale….sail on, to fall in love with Coast Guard yet again.

It was one of the most anticipated days of the year for her, a day brimming with moments that would be treasured as memories…a day to celebrate herself.

It was her birthday… N Rohan left no stone unturned to make Payal’s day special. He drove her to the US club, the place that the Coast Guard families find their happiness in … US club today was decorated with a tinge of her favorite colour… it was as if everything was painted red. The wall decals, the ceiling decorations, the lawn which looked more red than green now, was so inviting.

It was too much to digest at the moment… so many surprises that they couldn’t fit into her range of sight. He hugged her, “Happy Birthday darling!”

Thousands of words she wanted to utter to thank him but she couldn’t, because her wet eyes spoke all the unspoken words. All she could manage to say was, “I love you!” There on the lawn was her family, his family…she shared the moment with all her dear ones….she danced to romantic tunes with him. Everything was just perfect.

Suddenly his phone rang… He went aside, “Dy Comdt Rohan speaking, Sir”. His expression while he was speaking was more than enough to warn her that something serious had happened & that the country needed him… She started drowning into a wave of sorrow but that was just for a few seconds for her heart could see the difference between his duty & his love for her… so what if he had to go, she would silently support him.

He came to her “ Payal, there is a sail with dispatch action so I will have to go right now.”
“Yes, I understand” she said & hugged him.
“Take care” she said.
“Yes, I will, you don’t worry. Just be with me.” He replied.
“I am always with you!”
“I love you”, he said.
“I love you too.”
“Bye”
“Bye bye”
Rohan went to the Commanding Officer's cabin who was instructing his crew about the emergency operation. He was calm as he did & that calmness was strong enough to gear up everyone for the operation.

“A report gave us information about a foreign ship which is suspected to trade drugs & smuggling goods. So we have to confront it as soon as possible. The smugglers are equipped with sharp weapons & can switch to firing when we ask them for license… so be careful as you take each step”.

It was a confidential meeting. He came to Rohan. Right now he wasn't Payal’s husband, he was the pilot of Chetak, the helicopter which he had to fly in a few moments from the helipad in the ship.

“Rohan, your role is very important. Start from sortie. Keep monitoring them for any action that they might take to trap us. Keep your eyes open. All the best my boy!”

Rohan immediately started working on the instruction. The sky was clear… & the sea. It had to be cleared from the thorn that was threatening the safety of the Coast.

Rohan wasn’t alone. He had one co-pilot & two sailors who were constantly monitoring the smugglers. The suspicion was correct. The ship, the goods, everything about to ship was illegal. When caught, the ship tried to hide but Rohan & his crew didn’t allow them to do so.

The Commanding Officer drafted a plan to trap the ship with the help of Charlie boat, the hovercraft & the Chetak. It wasn’t easy to catch hold of the smugglers. They responded violently. A smuggler aimed at Chetak & shot it. A sudden jerk; Rohan felt it, but he had no idea that one bullet was going to be the root of the tsunami of problems that he was soon going to face.

The impact of the bullet cracked one of the sockets & the leakage of carbon monoxide commenced. The carbon monoxide in the air induced drowsiness in the fighters. To add fuel to this was the non-functionality of the engine. Too drowsy to react, Rohan found himself helpless…

‘Dham’!, Chetak crashed into the sea… far away from the scene, 72 hours past the incident, Rohan opened his eyes…only to find himself on a lifebuoy… & surrounded by water, but not a drop to drink. That phrase was apt to describe his situation. It was a high tide day. As the gigantic waves tried to crush his upper body, the biodiversity of the sea, attacked the part of his body in water.

His injured jawline, combined by pain in every inch of his body, the drowsiness, the delirium were pushing him to death but the thought of Payal in his heart some how kept him alive. He had to live…

He was too weak to do anything but the sun rose spreading its rays of hope. A new life emerged him within the rising sun.

Rohan spotted far away, a fisherman's boat. The will to stay alive pumped him with energy to shout for help. Finally the fisherman heard his screams.
The fisherman sent a rope to him & helped him get on his boat. The boat sailed to Mumbai beach. The fisherman was aware of the incident which took place & informed Rohan that none else survived.

Whilst Rohan was stuck amidst the blue for many hours. Payal glued herself to prayers. She couldn’t think of eating without him. Even a sip of water refused to go down her throat... she was just breathing, lifeless... and then the phone rang!

She picked up the phone. It was the Commanding Officer!

“Rohan”! that was all she could say.

“Yes, Payal, Rohan is safe. Get ready.

I am coming to pick you up & then we will head to the hospital to meet Rohan”.

“Rohan is safe” ... Tears rolled down her eye. She thanked God. All the prayers paid off. She rushed to the dressing room, she was too weak to change, but she applied sindoor, the red coloured powder which gave her life a meaning, which allowed her to feel his existence.

As she did this, she smiled to herself... & heaved a sigh of relief... His safety was all she wanted. She reached the hospital with the Commanding Officer - Rohan was just being taken out of the operation theatre. All his injuries had been worked upon. Yes... he was critical but - the doctor assured her that with rest & proper care he would be fine. There was nothing to worry. All that his sub-conscious mind said was”, Payal! Payal! Payal!

He was still unconscious. She touched his hand, felt his pulse beat. Tears of euphoria rolled down her cheeks. He slowly opened his eyes & held her hand.

“I am here Rohan, don’t worry!”

He smiled... conveying to her, “Now, I will complete the remaining part of your birthday!” , what better birthday gift could she get.

The Commanding Officer congratulated Rohan for the success of the operation & asked him to take care.

As I write this story, I wonder what every spouse of Coast Guard employee goes through, waking up to see the empty side of her bed, checking phone every second, waiting for that phone call or three word message. We miss our partners while they are guarding the Coast. Our love for them is stronger, stronger than anything else. We live & cherish every moment because we are never promised tomorrow. So, yes, its very easy to walk away but we choose to get up & stand strong next to the Guards of the Coast. The same way they stand strongly for our country. In a way "we Guard the Coast too"

When we hear the word, ‘glamour’, we immediately think of breathtaking style, attractive features, a million dollar smile, or may be gloss and glitz. According to me, glamour does have a direct relation, and a huge one at that, to grit, supreme self confidence, grace, passion or a magically commanding authority, which lends to the person a fascinating attraction that is truly irresistible. High levels of commitment, discipline and ethics is required, be it in the field of business, modelling, photography, space, ocean, theatre, music or dance. Glamour concerns a lot to an aura of magnetic positivity that a person possesses, the principled values stood for and the visions dreamt of passionately and the dare to see them happening. Remember, the scene where Rio Olympic silver medallist, shuttler P V Sindhu, in all humility and rare dignity, went across to the sobbing Carolina Marin, gently hugged her and lifted her, showing a rare-to-find sportsman spirit? There and then, she stole countless hearts whose eyes shed tears of pride and this act of hers will forever remain etched in the minds of all spectators, in all countries, all across the globe.

Self-respecting, indomitable determination and empathy in ample measure is almost always a remarkable feature of glamorous people, which then, spreads all around vibrantly. Everybody knows Nita Ambani, a top business woman, who has never allowed herself to be shadowed by the richest man in India, who happens to be her husband. Who can forget the super danseuse, 80 years young, Vyjayanthimala Bali, who put many young artists to shame while performing at New Delhi recently? We all adore Sudha Murthy, the perfect combo of wisdom and compassion, who is going all the extra miles to give comfort to the needy and we can find many of the still-struggling-to-find-a-place artists in theatre and ramps truly glamorous.

At the grassroot level, we have Chhavi Rajawat, the first woman Sarpanch of a village at Jaipur, who has introduced rain water harvesting to the villagers. Following in her footsteps is Vasundhara Choudhary, who graces another village, Lilawali, again at Rajasthan, as its Sarpanch with a vision of imparting and improving education.

An integral part of today’s social fabric where inequality is on the decline, the role of the seemingly weaker gender is no more restricted to the home boundaries. Glamour is mostly represented by the female gender, although personally, I feel that gender has nothing to do with any job well planned and meticulously executed. The picture of the self assured Arundhati Roy, the Booker prize winner and Mini Menon, a renowned name in the field of journalism who keeps us informed about
finance and business news comes to my mind, so do the pictures of classic, sensuous and divinely enigmatic enthrallers, Bharat Ratna awardees, the Nitingale of India, Lata Mangeshkar and M S Subbulakshmi. The name of Rukmini Devi Arundale, Founder of Kala Kshetra, today a deemed university under Kalakshetra Foundation at Chennai is remembered with awe as the gallant lady who was instrumental in getting the legislation of Prevention of Cruelty to Animals Act passed during her stint as member of the Rajya Sabha. What wars she braved!! These are some of those who are ever looked upon, ardently adored and emulated.

Women are innately blessed with charm that help to promote any idea, concept or fashion with more ease and grace. For that matter, when Hema Malini lends herself to patronize a certain company for drinking water, her glamour lends itself aesthetically to the product too. Magical treasure is struck. Voila!!

If I have to turn the clock backwards to pick women who have had the courage and exhibited the same, I see the role of Kunti, who tried to charm Karna to shift loyalty to Arjun with the only intention of preventing the catastrophic consequences of the Kurukshetra war. Ancient diplomacy!! Can then, Draupadi, the undisputed glamour queen of the Mahabaharat be left behind? She was a mere pawn in the political hostility that flourished between the Pandavas and the Kauravas. An epitome of classic glamour, she turned to all the so-called chivalorous and virtuous men present for protection, when she was being openly rebuked and her dignity was at stake. These men, five of them her husbands, remained so blind, mute and meek onlookers that Divine grace had to be finally showered on her. That was the moment of beckoning for her. She decided to become the catalyst for the destruction of evil and ended by metamorphosing as the prime reason for the war between them. God had to use a woman, a glamorous one at that!! A sloka from the Bhagwad Gita comes to mind...

‘YADA YADA HI DHARMASYA, GLANIR BHAVATI BHARATA, ABHYUTHANAM ADHARMASYA, TADATMANAM SRJAMYAHAM...’

In the world of glamour which is predominantly female oriented, we find women playing profound roles, be it in the medium of Television or high-end fashion ramps or the dazzling and dynamic world
of theatre and films. The glamour icons of Hindi Film world would be the likes of Madhubala, with her oozing potions of magic and style, the classy Jaya Bachchan in her meek and chirpy portrayals, or the latest glamour sensation with immense talent, Kangna Raut. The roles portrayed by these film heroines show how truly the role of the so-called weaker gender is increasing in significant measure. In the field of sports, PV Sindhu presented her master reflexes and fluidity on the court, almost taming her opponent and stunned the audience with her brilliant and mesmerizing strokes. Innumerable days of perseverance and discipline finally paid off. A legacy had been created! That is glamour-in-action.

If I have to talk of spiritual glamour, the names of Sarda Devi, the spiritual consort of Sri Ramkrishna Paramhansa and Mirabai, the divine epitome of righteous love and true renunciation flashes instantly. Mirabai, the saint, had voluntarily renounced all worldly attachments to remain fully soaked in benign bliss. This arena dictates paramount discipline, taming of senses, achieving of even-mindedness and practicing stern spiritual practices in testing conditions, for the ambrosia is reserved for a deserving few!

Recently, Laxmi, an acid attack survivor dared to walk at an International charity fashion show where only looks dominate. Can one imagine what agony she had to undergo, enduring pain in silence, day in and day out, deciding each passing day to come out of the trauma? The guts, the agony, the faith, the challenge, the rebukes, all highlight the mud she is made of. This is true glamour for me.

Even in the world of high-maintenance, low-returns modelling, the models whip and tame their taste buds to chisel their bodies to superfine standards. In an avenue where opportunity to fame knocks with a pre-announced short shelf life, these artists endure a lot to stay slim and fit.

This, then, is glamour for us. The spirit of fortitude, dignity, tenderness, compassion, scientific temper, sensibility, refinement, class, beauty, charisma and confidence. These women have visions, missions and all the courage and conviction to carry the weight of their goals and see them materializing, ultimately leaving behind substantial benefits of permanent nature to mankind and setting a role model for others to emulate. I also salute all mothers in general and Indian mothers, in particular, who are big achievers and whose silent contribution, over the years can just not be ignored.

Glamour and woman have been and are eternally intertwined, only with their contribution receiving all the attention that had been overshadowed by masculinity, till very recently. The woman leads, and left with no choice, glamour meekly entwines her!!!

WE CAN BUY OUR OWN TIFFANY’S

Today a woman’s stand in society is better than ever before. These women (belonging to the glamour world) are making a mark for themselves in the society as a messiah for all the little girls who dream bigger than their sizes. These women are strong, independent bread winners who are silently voicing feminism (a word filled with thunder). They are trying to make society better for their fellow gender mates. She’s voicing her demands. She’s not frightened anymore by the term “what people would think” and she wants every growing girl to realize that.

These glamorous women make us believe that we are our own person and can achieve whatever we set our mind & heart too that we have the strength to fight the social pariah.

She’s at the helm of decision making. She’s leading nations, companies, governments, financial institutions. Today a woman holds the highest power in both WORLD BANK AND IMF. These girls got an Olympic Medal for our nation. The banking sector is sprawling with women CEO’s. Paramilitary forces are executing their very first batches of women in combat. Our female actresses have started earning more than their male counterparts.

Today the dynamics of being a woman has changed. She is earning on her own, living on her own, buying her own diamonds, flying on her own without any rope to harness her. We young girls don’t see any other way of living. We see a future, where we are glamorous in our own way, in our own skin.

A KISS THAT MEANT A LOT

My father worked seven days a week, and my mother was always cleaning, cooking and doing laundry. They both came from undemonstrative families with parents who never showed any affection and never told them they were loved. So, of course, this explains why they didn’t know how to give affection or express it in words.

My life changed at age 12 when I stayed overnight at a friend’s house. Her mother kissed us both goodnight and tucked us in. That did it. I was so moved by that loving gesture I couldn’t sleep. I thought, “This is the way it is supposed to be.” When I left, I was angry at my own parents for a while, but I couldn’t hold it against Mom and Papa for the way they were.

This is what I did to reverse the process: I began kissing my mother so often that I got her to laugh about it. I married at 19 and had one child when I was 25. I kissed her until her little cheeks were red. When I talked to my mother on the telephone, I would say, “I love you, Mom.” After a while, she finally said, “I love you too.” I’d never heard her say that before.

After a few weeks, when I’d go to see Mom, she would say, “Where’s my kiss?” When it was time for me to leave, she’d say, “I love you. You know that, don’t you?” I cherish the many letters from her saying, “I love you.”

I hope it’s never too late to change, and I promise you, it works.

A PLACE FOR ME

It is a lovely early morning,
I need an island in the sea,

Away from you
Away from me,

Beyond the world that we live in….
Under skies of shining stars,

Away from light &
Noisy cars……..

Above the egos and the stress,
Beyond the world of which we made a mess,
A place for me, a place for you…..
An earth that’s green, a sky that’s blue,

A place for me
A place for you,

An open sky & light blue sea,
Above the waves,
Above the winds,
Above the world,
That we live in…..

Just above the trees & birds,
And above the world below,
A place I can’t describe in words…..
I need an island in the sea,

Away from me
Away from you…..

Universally acknowledged the victor
In the silent recesses of our subconscious,
Yet undermine not, in solemn ignorance
The irrepressible, dormant power of silence!

Blossoms a rose bud to a beauty unmatched in fragrance!
A tiny seed is inherently a might tree!
A larva is a colourful feast to eyes!
All in silence!

An egg to a li'l being in womb,
It learns by mere two senses
As adult, picks up thoughts from the ether,
All in silence!

Lines of heart spring forth
As do soul-stirring notes,
Hands on art, minds on ideas-magic are created!
All in silence!

Now day and now night
Swift movement of seasons too;
Splashes of changes all over!
All in silence!

Time the unvanquished tyrant, moves on
As do depart our loved ones
On onward journey, gifting a permanent echoing silence,
All in silence!

Each to his own battle, strictly
Unravel his intricate karmic bonds;
Knotty enough to elicit the right choice,
All in silence!

The nature, nay the entire cosmos
Reverberate to the original sound,
Join in this universal ‘Joie de vivre’
All in silence!

Silence conveys where verbose fails,
Prayers are repeatedly answered in silence,
O! man success is all yours;
Just attune to the eternal force of silence, silently

WOMAN, YOU ARE FESTIVAL!

Gods, lamps, rituals and light
Clothes, food, prayers and sweet
Bringing new hope and joy
Something old there says bye

Festivals are not outside
take a journey now inside
We clean our home, wear new dress
Invoke gods for all goodness

Thousand reasons don’t we have
To rejoice with life and self?
How blessed is womanhood!
Words don’t say enough good.

Take a broom to begin with
clean rooms of house within
Health is wealth all we know
How really rich are we now?
Money is life, don’t we think?
How much peace does it buy?

Jealousy is feminine,
The whole world thinks
Thoughts are medicine
Let’s make it sink

Curious being we truly are
We discuss things, not people
Kindness suit that we wear
Is not a weakness, make it sure

Empowered hearts never take
Any backward steps to escape
No is a no, Spade is a spade
Life is light, just be glad

Fashion is not what we cover
It’s a journey within to discover
Modern thoughts take some time
The world is slow to proclaim

Swinging life goes to and fro
Joys and tears, come and go
Life is simple, be easy
Open the doors, feel breezy

Clean is your house, from within
Feel the peace with a wide grin
Light up the home with a smile
Darkness goes away a mile
It’s human to err or nod
Life is not that much flawed

Bye Bye ignorance, never be back
Hello dear knowledge, give me a hug
Coming to senses, one fine day
A new celebration on its way

Woman, you are a festival
Take pride in your self

Celebrate your self
Celebrate yourself, your beauty
Festival is you, make merry duly

INTERNET DETOX

Technology is a boon to the society, if utilized wisely and judiciously. One such technology which came into being into last century is the Internet which has revolutionized the world. It has brought two people from two distant places on the earth together for networking and sharing ideas. Earlier one was required to have a PC or laptop to access the internet due to which the usage in our country was limited and the services were also not up to the mark. However, with the advent of 21st century, globalization, availability to latest technology and affordability of smart phones have made internet accessible to common people. Online shopping, Social Networking, Online Banking, Bill payment and online reservations are the few things which a person can do on the go on his smart phone.

As far as India is concerned, the growth of the internet is still much slower and quality is much inferior to some countries like South Korea which are inferior to India in terms of internet access. There are some other countries which are inferior to India in terms of GDP like Myanmar and Maldives but superior in terms of access to Internet. India has a lot of scope for improvement but at the same time India has to be well prepared for the ill effects of access to superior technology.

It has been observed that Internet is affecting people just like alcohol/tobacco dependency syndrome. The people have confined their world to Internet. It has also been observed that members of the same family staying under the same roof are so busy on Internet over their smart phones that they do not have time for each other. This ill effect of Internet is growing at faster pace than the technology itself. This dependency on Internet is not only affecting relations but also affecting the health of the people.

People in South Korea and other developed countries like Great Britain have resorted to Net detoxication camps to get rid of this habit. The event management companies are organizing these kinds of rehabilitation camps where the parents are enrolling their wards. The person who enrolls in these camps is not allowed to keep his mobile, there is no access to computer, internet or television to him/her for 01-02 months. These person are asked to mingle with other person in the camp, make friends and carry out team activities assigned to them on daily basis.

People who have successfully completed these camps have revealed that prior to enrolling for the camp, they could not have imagined their lives without Internet but after completion of the camp they have realized that Internet is not everything.

Therefore, it is concluded that technology is a boon for the human race but one should not be addicted to it. Further, relations, friends and health should be give due importance over everything else.

SLEEP - RESTORATIVE OF TIRED BODY AND MIND

Sleep is one of nature’s greatest inventions and blessings of life. It is a periodic rest of the body which is absolutely essential for its efficient functioning. It has been called “most cheering restorative of tired bodies.” Sleep is the indispensable condition to the recuperation of energy. We go to bed fatigued and get up refreshed. Sleep repairs the wear and tear of the body and mind incurred during waking hours. Nothing is so restorative to the nerves as sound and uninterrupted sleep. Sleep is thus a vital element in a total way of life. It is a basic need in man’s mental as well as physical life.

During sleep temperature is from 10 to 15 per cent below the basal level. The mechanism regulating the body temperature is less sensitive than in the waking state and are depressed by 0.5 to 1.0 degree F. The rate of heartbeat is reduced by 10 to 30 beats per minute and a decline in blood pressure of about 20 mm occurs in quiet, restful sleep. The urine volume is considerably reduced, but its concentration in solids is increased. The tone of all the skeletal muscles is lessened. The eyes are usually rolled upward and the pupils constricted. Loss of sleep exerts seriously detrimental effects upon the nervous system.

Sleep versus rest. For correct living, it is essential to differentiate between sleep and rest. At rest the body is disturbed by all exterior noises. But in sleep it is screened from them by partial loss of consciousness and also by what is called “dream protection.” One useful purpose of the dream is to convert outside noises that might awake the sleeping person, into fantasies that do not disturb him. During rest the limbs are normal, but in sleep they swell. Blood flows from the brain, distends the arteries, and makes the limbs bigger. In sleep more muscles are relaxed than in rest, though the sleeping person changes his position about 35 times in one night, without knowing it. Many organs which work during rest suspend their activities in sleep. Thus the recouping value of sleep is much more than that of rest or simple lying down.

Duration. Another mystery about sleep is that no two persons need the same amount of sleep. Women sleep from 45 minutes to one hour more than men. The amount of sleep required varies at different ages as follows :-

(a) New Born : 18 to 20 hours
(b) Growing children :10 to 12 hours
(c) Adults : 6 to 9 hours
(d) Aged persons : 5 to 7 hours

The depth of ordinary restful sleep fluctuates throughout the sleep. In most adults, sleep deepens through the first hour, after which it lightens rather sharply and then more gradually until morning or until the usual time of wakening. In growing children, however, sleep deepens a second time for a little while. Two hours before and two hours after midnight is the most valuable for sleep of all the twenty-four hours of the day. In these four hours, mental and physical vigour are at their lowest ebb and sleep is soundest and most natural.
Sleeping positions. There are many theories about good and bad sleeping positions. Practically everyone changes positions several times during sleep. Hence how one starts out is of no consequence. It is a good thing we do turn about in our beds. If we did not, we would awake in the morning stiff, having maintained the same position all night. For proper sleep, however, one should not sleep on one’s back but on the side with one or both legs brought well up and the head and the shoulder slightly forward. The sleeping place should be well ventilated, with balanced temperature and free from noises. The bed should be neither too hard nor too soft, but comfortable. The pillow should not be too hard or too high. The bed clothes should be loose-fitting and light colored. Another important rule is not to have heavy food shortly before bed time.

TENSION - THE HEAT WITHIN

The moment you are in tension
   You will lose your attention
Then you are in total confusion
   And there enters a feeling of irritation
This may spoil your relations
   Ultimately you won’t get cooperation
Things get into complication
   And you may have to exercise caution
Along with a lot of meditation
   Why not try understanding the situation
And come up with solution
   Many problems will be solved by discussion
This will work out better in your profession
   Don’t think this a free suggestion
It is only that cure is not better than prevention
   If you understand my intention
You will never came again and enter the zone of tension

FOUR WAYS OF LEARNING

Learning is a continuous process. We begin to learn from our childhood and continue to learn throughout our lives. Learning takes place generally in any of the following four ways:

- **Being Told.** Learning takes place by receiving direct instruction, either orally, or in writing. Following are some examples of learning situations of Being Told: -
  (a) A learner learns to fill up a leave application form, on being told.
  (b) A learner learns to wear his peak cap correctly on being told.
  (c) A learner learns to use a telephone by following written / verbal instructions.

When one analyses the process of Learning by ‘Being Told’, the following points emerge: -
  (i) The LEARNER has little or no information on the subject, must want to learn the information, and accept the teacher/guide/coach as a provider of it.
  (ii) The teacher/guide/coach must know the information, be able to communicate it effectively and be trustworthy to the LEARNER.
  (iii) An instructional session must be created which gives the LEARNER, the opportunity to learn.

  (This requires preparation, effective presentation, and a sufficient amount of time for learning to take place.)

- **Trial & Error.** Learning takes place by trying for oneself. It is useful in learning skills. LEARNERs learn by attempting to do something. If they do it correctly, they feel happy and do it again. LEARNERs get motivated to repeat their performance and learning takes place. Even if they attempt to do something and fail, they learn from their failure.

Following are some examples of learning by ‘Trial & Error’:
  (a) Learning to assemble a small electrical circuit.
  (b) Learning to write a computer program.
  (c) Learning to hit the bull of target using a pistol.
  (c) Learning to surf on a ‘Wind Surfing Board’.

When one analyses the process of Learning by ‘Trial & Error’, the following points emerge: -
(i) Trial and error learning situations should be so designed that the LEARNER has a good chance of making successful attempts, leading to positive reinforcement.

(ii) Learning events leading to probable failure should usually be avoided. Frequent errors lead to a lowering of confidence and develop reluctance to attempt further trial and error.

(iii) However, the learning situation should cater for one or two failure attempts. This would allow the LEARNER to learn from what went wrong.

(iv) The LEARNER should feel a sense of security. He or she should feel confident that if the attempt results in failure, it would lead to nothing other than friendly advice.

**Imitation.** In imitation, learning takes place by copying the actions of another learner, usually an instructor or a skilled learner.

Following are some examples of learning by imitation:-

(a) Learning of correct method of driving.

(b) Learning of correct method of pulling abo

(c) A baby learning to eat with a spoon by observing others.

Learning situations by way of Imitation must be created keeping the following points in mind: -

(a) A good model performance should be available so that the LEARNER can imitate it.

(b) The learning event should permit accurate and complete observation by the LEARNER.

(c) As far as possible, LEARNERs should not be exposed to bad models. If this cannot be avoided, then efforts must be made for positive learning from bad examples and the results of bad performance should be brought out.

(d) Trying to change the work behaviour of one member of a group is almost bound to end in failure. It is usually far more effective to train the whole group together.

**Thinking.** Learning can take place when a LEARNER is encouraged to think about a situation or experience and reflect the same in learning terms. Learning takes place by organizing one’s thoughts about a topic or problem to arrive at an explanation or solution.

Some of the examples of Learning by Thinking are as follows:-

(a) Solution to complex problems in mathematics or science.

(b) Learning to solve tactical problems/exercises.

(c) Learning to solve analytical problems.

Following are the factors to be taken into account for creating learning situations by thinking: -

(a) The maturity and experience of the LEARNERs, relative to the thinking required.

(b) The teacher/guide/coach should adopt an advisory, counseling role.
(c) The teacher/guide/coach must encourage LEARNER-centered learning and avoid imposing learneral solutions to the problems posed by the situation. teacher/guide/coach

(d) The more complex the situation, the less likely it is for there to be a simple, definitive answer.

(e) Thinking is a very learneral activity and the time needed to reach a solution to a problem will vary considerably within a group of LEARNERs.

(f) If there is a straight forward, definitive, solution to a problem it is usually far more appropriate simply to tell the LEARNERs.

TECHNOLOGY - BOON OR BANE

Technology today is an integral part of life. Rapid advancements in the field has increased the pace of life, effectively coordinating reality with imagination. In other words we virtually move with our thoughts and as we look ahead, today’s technology becomes out dated tomorrow. Technology innovations have ensured maximum customer satisfaction in a demanding market environment. Rapid changes in marketing strategies through technological innovations have caused traditional markets to face business crisis as their overheads exceed income. High rentals have to be compensated by them through unrealistic pricing. Consumers accessing bank account, railway, air, bus and even movie bookings have long since overtaken human intervention.

The move today is towards paperless functioning and reduction of cash transactions cutting of costs, preventing tax evasion and ensuring financial safety. Public examinations for schools, universities and even job offers are conducted and evaluated online with early announcement of result. Public and private departments, financial institutions and business enterprises have turned tech savvy. Even security forces, intelligence agencies and the local police access computers for investigations and data processing. However, while all the above technological achievements deserve accolades and reflect on our scientific capabilities, we forget the loss of human touch. How often do we socially interact? A generation ago people met to exchange pleasantries and shared views. Life move at a slower pace but more qualitatively. Today, people meet and chat over internet with total strangers whom they are never likely to meet in person. Family interactions, as had been known earlier, are no longer in vogue at the traditional dining room at home but characterized by distant correspondence across the globe with visitors proving to be more of a nuisance than a welcome presence under such circumstances.

The mobile phone in the pocket today is as important as the shirt on the body. In the absence of the mobile phone, life appears insecure. They are not mere instruments for conversation but also gadgets
for photography, tapping of conversation and storage of information both at home and office. This may also be an intrusion of privacy and a hindrance of exchange of confidential information whether at home or office. It may also prove to be a security hazard. Some institutions today prohibit the use of a mobile phones within their premises for such reasons. The loss of misplacement of a mobile phone create a panic which was absent yesterday when the brain took care of storage of memory and timely delivery of output without SIM cards.

Technology has thus, combined innovation with tension. A debit card or credit card may prove handy for a commercial transaction but careless handling may work to the detriment of the card holder. Export hackers may read through the magnetic strip of your ARM card or even in the case of lesser mortals misuse a recorded or disclosed PIN. The loss of a credit card may pose even greater problems for the card holder as unlimited transactions are put through on a lost card by fraudsters. A Failure to close the transaction may also leak out information at an ATM outlet to the detriment of the account holder. Technology works both ways as intelligent criminals circumvent loopholes in safety of transaction which necessitates technologists to continuously stay on their toes. Today invigilators at school, collage and board examinations also have to prevent use of electronic gadgets for unfair means.

I however do not wish to be called a pessimist but I am only being realistic. Technological development and innovation are welcome to modern society but there are always two sides to a coin. Roads may be smooth but accidents do take place. So please permit me to listen to the music on my mobile for time being and mentally relax before I attend to it.

COAST GUARD - ‘A WAY OF LIFE’

Life in Coast Guard is engaging, challenging and adventurous as sometimes we are on ship or posted in establishments. From saving human lives at sea and assisting fishermen in peril, to apprehending poachers and preserving marine biodiversity, job satisfaction comes easy to a member of the coast guard. Each day at sea is filled with promise, and each mission is different in an inimitable way. In the past three decades the organisation has expanded, consolidated and emerged as one of the leading law enforcement agencies of our country. Moreover, Indian Coast Guard is regarded as one of the finest Coast Guards of the world. In a nutshell, it has carved a niche for itself both at the national and international forum.

The Coast Guard not just provides us with a quality life, but also brings us face to face with a plethora of adventurous moments, each of which can be a treasure for the rest of our lives. The service is all about facing situations, whether performing search and rescue, encountering pirates or going on humanitarian missions. We have to rise up to difficult challenges and battle with life and death - all this amidst great expectations. Life in the Coast Guard is also about rising above individual aspirations, forgetting differences and working as a team towards a common goal. It calls for great leadership skills and fosters the spirit of camaraderie which shall stand in good stead in any walk of life. We get posted to various places - islands, bays and remote coastal towns. We come in contact with a wide diversity of flora and fauna, heritage, cuisines, people and cultures that provide lateral education to our children and families. Such a kind of living makes us truly cosmopolitan. As time passes, the distinction of race, caste and creed disappears and we assume truly homogeneous identities. In a country like India with its diversities, we get to see National Integration at its best.

“Our home is where the Coast Guard wants us to be.” While we get posted in interesting and remote places, we encounter great opportunities to travel. The Indian Navy’s motto - “Join the Navy and see the World” also holds good for the Indian Coast Guard. Today, as the world is shrinking, the Coast Guard personnel are constantly touring foreign countries for exposure and exercises apart from the education imparted in the form of various courses undertaken by our officers and men.

Serving in the Coast Guard is indeed a “Way of Life” and it is one of the few noble professions a person can aspire for. It is a matter of pride and honour to be a part of this esteemed organisation. It gives us an opportunity to live a wholesome life. As quoted by the famous American psychologist and philosopher, William James,

“We are like islands in the sea,
separate on the surface.....but connected in the deep.”

1. **The value of discipline in day to day life.**
   
The Indian Coast Guard places a really high value on discipline and the importance of routine. Planning things out and doing them at the same time everyday not only helps them stay on schedule, it actually makes them more efficient at what they do.

2. **That practicing “Unity in Diversity” isn’t a big deal at all.**
   
   Bravery has no religion, caste or colour. The Indian Coast Guard is shining examples of equal opportunity and brotherhood.

3. **The real meaning of friendship.**
   
   A lot has been said about the deep bond soldiers share with each other. The kind of camaraderie one sees in the Coast Guard is something we all should try to emulate in our lives.

4. **To always have a thirst for adventure.**
   
   The forces have always encouraged adventure activities like sky-diving, para-sailing, camps, bike rally etc. A little adrenaline every now and then will keep you young.

5. **To strive for a well rounded personality.**
   
   In Coast Guard Training Centre and other Defence training institutions, young officers in training are encouraged to choose from a whole host of activities like sailing, boxing, polo, astronomy, music and many others. The point is to turn them into well rounded individuals with a wide range of interests and hobbies.

6. **The determination to achieve your goals.**
   
   One thing that truly makes mariners stand apart is their ability to achieve their goals, even fighting against incredible odds. Indian Coast Guard is a force which is awaited by challenges in day to day operations.

7. **How to be selfless.**
   
   The Indian Coast Guard is an organization which has its motto “We Protect”. “The safety, honor, and welfare of your country comes first, always and every time. The honor, comfort and safety of the man you command come next. Your own ease, comfort & safety comes last, always and every time.”

8. **To believe in your team and in your organization.**
   
   When you believe in something, it becomes easier to give it you all. The members of the Indian Coast Guard are characterized by a steadfast belief in their cause and untied by the love for their country.
9. **To understand what patriotism actually means.**

   There is a difference between being patriotic and being jingoistic. Many people think that being patriotic simply means hating Pakistan or China. But the people who serve in the forces didn’t join because of hate. They joined because of love; love for their own country and save human life whenever there is any distress at sea.

10. **To always have a positive attitude.**

   The men who protect our borders have this knack of being really hard to de-motivate. They tend to see the best in the worst situations. Even when the chips are down, they never leave a chance to celebrate.

**AMBITION WITHOUT HOPE IS A BIRD WITHOUT WINGS**

Every one in this world has an aim in one’s life, but it can’t be achieved if one doesn’t have hope and that’s why it is said that “Ambition Without Hope Is A Bird Without Wings”. Without ambition, it doesn’t matter how smart you are - as it is the driving force that makes our intelligence actually useful. Ambition is equivalent to happiness and we can achieve our aim with combination of hard work and our abilities.

In today’s world, the majority of us, strongly believes that achieving aim in life is purely guaranteed only through an impressive formal education. In other words, having a degree from an educational institution bestowed on a person, would mean that this person would most likely be successful when compared to someone else who either refused to or did not have the possibility to follow such commonly used path. Achieving success, as Robin Williams once implied, knows that you’ve contributed a verse to this life which goes on for generations even after you die. In other words, to me, it does not matter which path one takes, as long as that person has contributed something meaningful to society that can be said to be his legacy. As a result, that person, to me, would be considered to be one of the few to achieve true success.

Ambition gives us the strength of direction in life. My aim in life was to become a defence officer to render valuable service to our country. My second aim in life is to represent India in Olympics and I still have hope that I will achieve it. I have achieved my first aim and I am proud of it and soon I will be achieving my second goal. Ambition is the drive that pushes someone forward and if they stumble, and fall, the energy to pick oneself back up and then be more determined than ever what they are after. There are different types of ambition and the ways they can be applied are abundant. It’s just never losing hope in achieving in what you are after.

IMPORTANCE OF DISCIPLINE

First of all, what do we mean by “Discipline”? I would say that discipline means “Controlling one’s behavior” why would one want to control one’s behavior? The reasons are obvious. We live in this world with many other people, each one unique and different. In order to live together harmoniously we must have some sort of etiquettes guiding our social behavior. Without these, we would differ so much that there would be chaos and we would not be able to live together at all.

However, too much discipline can become inhibitive to the point that our creative energy does not fine any outlet. This can cause more problem than solving some. It cannot be denied that discipline is of utmost importance in school. Unfortunately, discipline enforced blindly often does more harm than good (for example: is that of our uniform. White shoes are compulsory, but what harm does a stripe of red and blue on the side of the shoe do. I have seen shoes being confiscated for exhibiting these “offensive” stripes. To me, the stripes actually make the shoes more attractive. To the school authorities the stripes cause gamers pain. They are being neurotic this confiscation of shoes is abuse of power, of discipline pushed to extremes. No wonder there are some of us who despise the school)

By far, the most important disciplinary factor at home is love and care shown by members of the family for one another discard the need for other forms of discipline. Love and care also bring the family together, reducing all types of disharmony to zero. A family devoid of love is doomed to break up. Sooner or later no amount of disciplinary action can prevent it.

It would be nice if school shows some genuine love and care alongwith discipline. I am not saying that there is none. We could do this more. However, it is not so easy because the school has so many people, this is the difficulty. Someday, may be we would reach some kind of mutual understating on this matter. Till then we will have to do with our present rules and regulations. How so ever undesirable they may be sometimes, they are for our better.

SOCIAL MEDIA

Most of the countries across the world call Media as the fourth pillar of democracy. Many of the emotions of the democratic nation are expressed through media. In today’s world this pillar is supported by the social media to a great extent, which is supported mainly by Technology for the general public that may not be able to access the main stream media as easily. Social media has become a means of expression for almost all issues existent in the society today.

Social media in general includes all the means of mass communication that are used by the public in general to interact with the rest of the society. Whether it be the more popular tools of social media such as Twitter, Facebook and Google+ or be it the private forums which enable people with a common concern to interact with each other, social media is playing a great role in integrating the world as we know it.

The importance of social media can’t be denied in the world where everyone is interested in becoming popular. Being a celebrity is no more localized to a few people in movies, sports or politics. Social media has given birth to a new category of celebrities called the social media celebrities. The people with unique talent or knowledge are no more in need of a major break so as to able to make the public listen to them. If you have the talent and social media on your side, any talent that is worthwhile can easily find its worth. One such example is of a toddler and her mother who recorded themselves singing a song form a Disney movie while in their car. The video did not only become viral on social media, it also made them celebrities overnight with over 4 million views in a few days. Given the degree of popularity that the common people can earn via social media, it is no surprise that the movie stars are leaving no stones unturned in using the same for connecting with their fans.

Another manner in which social media has greatly contributed in making our world a better place is by raising issues of social importance. So whether it is the breast cancer awareness campaign or the video of Alia Bhatt talking about girls’ safety gone viral. Through the social media, the general public has started to talk about the issues that earlier made them uncomfortable or were never talked about. In this manner, social media has helped the society take a big step towards reality.

WOMEN SHAPERS OF MODERN SOCIETY

Women’s freedom:

Women have risen to great positions in various key sectors making a significant contribution to the global economy. More and more women are looking at newer opportunities to exhibit their abilities. However, in spite of the evident progress of women, there is a lot to be done for the uplift and emancipation of women. The startling and glaring incidents of women being dehumanized show that they still need to see the light of day.

Significance of women in society:

Women do play a very vital role in the society. A family, who educates their girls, educates the next generation. Girls mature into women who for the most part oversee learning in the home and at school. When girls do not receive a well-rounded education, they cannot impart the same to their offspring. It is a simple, yet a profound truth. Woman of today needs to get her own identity because identity is the key for all human beings. It is imperative that a woman knows her strengths as well as her weaknesses so that she may be the best team member working cooperatively with all around her whether she is playing a game “at home” or “away”.

Challenges tackling ability:

Women have always and will always be “working women”. Women nurture on the home front as they have done throughout time, but now women are stepping outside of the home to contribute in corporate, educational, social service, medical, financial, and a varying and endless list of career paths. Women have played important role in the society. So many women have impacted today’s society for the better. There is an endless list where many unsung women in various parts of our nation have changed lives and shaped destinies giving new direction to so many in the country. However, women have always had a challenging task to be in the forefront in a number of male-dominated sectors. Even though certain societal norms may not always be able to accommodate women in leadership, they have created opportunities for themselves to serve in the least likely places. Women definitely bring to the fore different skill sets as leaders with their multi-tasking, tremendous networking abilities.

Inspiration of women against society:

The highest priority for our country to grow during this time is to cling to the rich value system and ensure human dignity all through. India has such depth of diversity and every citizen has to uphold and support the aspirations of women that they live with dignity and reach their rightful place in society. Being a woman translates into hard work, determination and, quite naturally, comes with a calling from above to invest a lifetime into encouraging all those with whom a woman comes in contact. The woman is the foundation of the family and of society itself. Women today need to have faith in themselves and believe in their own God-given abilities and accept one’s unique skills and talents learn to own them, and to use them fearlessly and contribute to the world. We have confidence in Isaiah, “So do not fear, for I am with you; do not be dismayed, for I am your God. I will strengthen you and help you; I will uphold you with my righteous right hand.”

RELEVANCE AND ROLE OF FEMALE GENDER IN TODAY'S GLAMOUR BIZ

Introduction. Our Indian sub-continent is gradually emerging as a powerful land since women began playing significant role for the development of the nation. Role of woman in modern India can be called as phenomenal. The transition of woman from the past to present is worth mentioning. Woman who once considered being the masters in the art of home making are now considered to be the forces that shape a country.

“The hand that rocks the cradle rules the world.” - Albert Einstein

Practical Status Of Indian Woman. There was a time when women were just kitchen keepers and housekeepers in the Indian society. Gradually women began to get educated, even highly educated and a stage came when some of them came out on the social and political field to rub shoulder with the men folk in these fields. The freedom struggle of India was the opening up of the new horizon for womanhood in India. In modern India, women have adorned high offices including that of the President, Prime minister, Speaker of the Loksabha, etc.

“Let the women reach the sky which is the limit!”

The Changing Scenario. In those days women faced many social problems like Dowry, Child Marriages, Death during Childbirth, Sati and many social problems but nowadays the status of women in India has been subject to many great changes over the past few millennia. The year 1995, was declared as the International Year for Women throughout the world. The women were made aware of their status and place in society. Women are now no longer in slumber. They are awake and moving fast.

“The extension of women’s rights is the basic principle of all social progress.”
- Charles Fourier

Performance of Women. There is no arena, which remained unconquered by Indian women. The most important name in the category of women politicians of recent times is Mrs. Indira Gandhi. Kiran Majumdar Shaw is the richest Indian woman. Some of the notable and outstanding women who set examples for others are Mother Teresa, Kalpana Chawla, Kiran Bedi, Sarojini Naidu, etc. Indian women have mastered anything and everything which a woman can dream of. But she still has to go a long way to achieve equal status in the minds of Indian men.

“History looks different when the contributions of women are included.”
- National Women’s History Project

Role of Women in Modern India. The status of women in modern India is a sort of a paradox. The modern Indian women have honed their skills and jumped into a battlefield of life fighting against social restrictions, emotional ties, religious boundaries and cultural clutches. She can now be seen working on par with men in every field. As compared with past women in modern times have achieved a lot but in reality they have to still travel a long way. Their path is full of roadblocks. The women have left the
secured domain of their home and are now in the battlefield of life, fully armored with their talent. They must avail themselves of the educational opportunities provided and learn to empower themselves.

“Educate a man and you educate an individual. Educate a woman and you educate a family.”
- A.Cripps

Conclusion. Development of our country depends on the empowerment of women. A man and a woman are like two wheels of a cart. The cart can move fast and safely too, when both of them pull it in the same direction and with equal strength. Hence no developing country or society can afford to ignore the role of women, if they are to progress.

“You can tell the condition of a nation by looking at the status of women”
- Jawaharlal Nehru.

I AM A WOMAN

Yeah, I am an endangered species,
On this earth,
Because I am murdered,
Before my birth.

The whole country is discussing
About my empowerment
But I am not safe
Even in my apartment.

Woman’s court are being made,
To give me justice,
But from my childhood I am taught
To live with injustice.

Laws are being reformed
For my safety
But the real need is to reform
This male dominated society.

INTEGRATING MIND, BODY AND SOUL FOR MENTAL, PHYSICAL AND SPIRITUAL HEALTH

Firstly I would like to tell what does body, mind and soul means. The body is the physical aspect of the human being. It consists of roughly 50 trillion cells which organize to form tissue, nerves, bones, and organs. The body expresses itself in the language of matter, atoms, particles, and molecules. The mind is the mental/emotional aspect of the human being. The mind processes thoughts and ideas as well as feelings and emotions. The mind is consciousness, memory, and imagination. The soul is a non-physical aspect of the human being. It is our personal and individuated expression of the divine or spirit. The soul is that part of us that has meaning and seeks answers to the great questions: Who am I? Why am I here? What is my purpose? The soul is eternal and communicates in the language of creative expression such as music, art, and poetry. The spirit is the vital force within all things. Spirit may be called God or Creator. It can also be called the Quantum field, the field, or the unmanifest. It is the indescribable organizing principle of the universe and its language is pure energy. The mind, body, soul are the components that, collectively, comprise and define our species. If we are sick or suffering, we must work holistically to completely heal. If we do not, we are missing the connection and in all likelihood will never reach our potential for wellness and vitality. If we do not consider the whole human being, we will most likely work to alleviate symptoms of a problem and never address the root cause.

When we talk about the human body, most of us refer to the physical form that we see in front of us. However, in reality, every person is made up of four bodies, all of which interrelate to one another and coexist in harmony. A disruption or imbalance between these bodies can lead to a number of health problems. Thus, it is necessary to understand how one body relates to another and how they can all be kept in perfect balance to live a healthy and happy life.

You can maintain a peaceful connection between the different aspects of your mind, body, emotions, and spirit, with the help of several easy practices. Few easy ways of balancing your life are:

Yoga – Involving strengthening and breathing exercises, yoga is a great way to find inner calm and balance between the four bodies.

Diet – A good diet is not only necessary for a healthy physical body. Sufficient intake of nutrition is necessary for the proper functioning of your mental capabilities as well.

Positive Thinking – Negative thoughts and feelings channel through your body, causing harmful effects. The power of positive thinking and its miraculous effects on the body cannot be ignored.

Herbal Remedies – What better way to find harmony than within nature itself? Herbal products can help you in staying calm and fit, allowing you to connect with your inner soul.

Meditation – get in touch with your spirit with the help of meditative techniques. They will help you in understanding your mental and spiritual body in a better way to provide positive effects.

Exercise – It is ideal to exercise every day as it can help in keeping the physical body healthy and fit.

A SAILOR’S LIFE

“A silent sea shows its vastness”, same is the life of its traveler i.e. a Sailor.” In comparison a Sailor might be equivalent to a Constable in State Police, but his vast experience which he have seen during his sea life makes his job unique from other. People spend millions to get just a short experience of sea and its scenery, to see the marine life but discovering this silent truth of sea is our duty. “What a life time adventure for people is a daily routine for us.”

A sailor has no home. The whole ocean is his home because a large part of his life he spends as sailing, anchoring etc. Except a sailor nobody has ever seen a glowing sky at night. Because due to pollution in cities we are not able to see all stars but the sky over ocean is pollution free, all the twinkling stars covers the black blanket of the sky.

Sea life gives a sailor the opportunity to introspect himself. The city life is full of noise and anxiety but a sailor attains peace from the silent sea. He takes lessons from the sea which has dual personality one which is totally silent and flat but the other one is rough sea. Nobody can ever imagine such a vast change in character. A sailor sacrifices his family life to get the unique sea experience.

MY JOURNEY IN INDIAN COAST GUARD AS CIVILIAN STAFF

In our life, each and everyday is an experience of a new journey. It is an opportunity for progressing growth. I have been travelling so far intellectually with pleasure and learning lot many things in my career from the environment of Indian Coast Guard.

I started my career as a painter in 1999. Now, I have been elevated to the level of Store Keeper and further growth in my career is very bright.

When I was also one among the crowd, I have observed all day to day activities in the system of store management being followed here in the Coast Guard Store Depot, Chennai. That time, I used to think that if became a Store Keeper I would give my best as per knowledge gained from my civil studies Logistics Supply Chain Management (LSCM).

From that moment only, I started my studies in the area of logistics and supply chain management. I have earned so much of awesome knowledge in the field of LSCM, which is growing and progressing now, would be well established in the world by the year 2020.

Store management is an art of work with the objective of providing support to operational ship & units for offering uninterrupted services/functions.
ON WOMAN

May God be praised for woman?
That gives up all her mind
A man may find in no man
A friendship of her kind,
That covers all he has brought
As with her flesh and bone,
Nor quarrels with a thought
Because it is not her own.

Though pedantry denies,
It's plain the Bible means
That Salomon grew wise
While talking with his queens;
Yet never could, although
They say he counted grass,
Count all the praises due
When Sheba was his lass,
When she the iron wrought, or
When from the smithy fire
It shuddered in the water:
Harshness of their desire
That made them stretch and yawn,
Pleasure that comes with sleep,
Shudder that made them one.

What else he give or keep
God grant me_(no, not here)

AMBITION WITHOUT HOPE IS A BIRD WITHOUT WINGS

“We should not give up and we should not allow the problem to defeat us”:
Dr. APJ Abdul Kalam

Ambition without hope is not an impact effect on desire result or goal, for what we plan and execute. It is very important that ambition should be a fixed goal. We should not change the goal, only change the plan to achieve the same and for that, hope is paramount to get the desired result. “Nothing can stop the man with the right mental attitude from achieving his goal.”

Ambition is the driving force that makes our intelligence actually useful. An ambition is an eager, and sometimes an inordinate desire for preferment, honor, superiority, power or attainment over something or someone else. To obtain object or goal that is immensely desired. It comes from the Middle English word “ambition” meaning an excessive desire for power, money or wealth. Ambition is something that everyone, no matter their age or cultural background, has instinctively. Through ambitious undertakings we can set goals and find ourselves and our god-given talents. Ambition can be a driving force for success, or in some cases a road to failure.

Hope helps us to live happy lives. We may not notice it, but hope is very important and truly matters. Without hope, life would be miserable. Without hope you would lead a boring, miserable life.

Hope is what leads you to interact with the world. Hope of succeeding is what leads you to go to college and get a job. How could one live without hope? In the darkness of life’s hole, you are trapped in your own fear and worries unless you have hope. It is a refuge from fear and terror, a shield that blocks your fear or thought of unlikely odds as though it was a ray of light coming from never-ending darkness. Hope is an optimistic attitude of mind that is based on an expectation of positive outcomes related to events and circumstances in one’s life or the world at large. Hope was defined as the perceived capability to derive pathways to desired goals, and motivate oneself via agency thinking to use those pathways. “To succeed in your mission, you must have single-minded devotion to your goal” and “without your involvement you can’t succeed. With your involvement, you can’t fail”

A person without any ambition is like a boat without rudder. There’s no way he can reach the shore in spite of all his efforts and capabilities as he lacks the driving force needed to get him to his destiny. Different people have different ambitions. Some aim to become teachers, soldiers, artists, politicians, doctors, engineers etc. Some try to amass wealth and some run after the name and fame. There are others who aim to serve humanity. Whatever the ambition they hold, it makes them independent of circumstances. They move ahead facing all the odds and difficulties that hinder their progress. Obstacles in the way will not lead them astray. Aspiring for great things in life is human tendency. The youth of today wants to scale the greater heights of success, if we dream for the stars; we will at least reach the moon. The greatest genius of the world can do nothing without that aspiration and will become as helpless and worthless as a bird whose wings have been cut
down to cease his ability to soar in the sky. “A man’s worth is no greater than the worth of his ambitions.”

There are many people not only in India but also in this world, especially the youth of underdeveloped countries, whose IQ level is better than many known achievers of the society, but they are nobody in the eyes of the society just because they lack right direction to channelize their intelligence and energy. They are actually aimless without any particular ambition to achieve and so their all talents are being wasted as they exist like birds without wings, which can never fly anywhere. One’s motive is one’s aim in life and a noble aim is the essence of life.

There is nothing that can stop us from achieving what we want in life. Our only obstacle is ourselves, and the extent of our ability to differentiate between a worthwhile and self-destructive goal. If you can imagine it, you can achieve it. If you can dream it, you can become it. Don’t steal a vehicle, but use your own, and no matter what road you take, you will end up where you wanted to be.

Now there is dust and smoke,

So it is time we woke,
  and these conditions we should revoke.

Such things going unstopped,

  and flood mother earth
  causing pain and death.

So let’s join hands to save mother earth,

A PARADIGM SHIFT

“A woman is the full circle. Within her is the power to create, nurture and transform.”

It was in the small port town of Paradip that I first interacted with the wives of CG personnel at close quarters. As I got to know them better I realized that most of them were extremely talented and knew how to manage their lives quite well. They were jacks of all trades and masters of some. These women knew what they wanted, understood that their lives with husbands being in the Coast Guard was a lonely one. The responsibilities were huge, from children to elderly being looked after, limited education for most of them being a mild handicap and of course the adjustments that come with each transfer pushing them to their limits. It’s probably these factors that make them unite as one and also encourage them to learn various trades like tailoring, embroidery and jewellery making, which not only help in enhancing their creativity and self confidence but also can meet their incidental expenses if required.

I felt I had a lot to learn from them and was surprised when ladies approached me for spoken English classes. Wondering whether I would measure up to their expectations, I started my classes and was pleasantly surprised to have an enrolment of about 15 ladies. As classes progressed, I came to understand that my ‘students’ were more enthusiastic than a bunch of students of class 9 and 10, I had taught in school. They had a great zest for learning, playing games, activities and strictly followed the rules of speaking in ‘English only’ inside the classroom. Equally infectious was their seriousness in preparing for tests and comparing marks. I found a group which wanted to relive or rather live the days that they had missed out when they were young and all it needed was a little bit of encouragement from my side. A child like curiosity and the will to learn lead my ‘students’ in staging a small English skit for CGWWA Milan.

It’s been years since then, and I haven’t had an opportunity to interact much with the ladies due to being posted at larger stations. However an invite for articles for Urmi from a range of topics kindled my interest, especially the one on ‘the need to shift in focus of tatrakshika for serving its members better in the backdrop of changing cultural and educational standards of society’. It also came to my notice on discussing with friends that there were not too many takers for regular tailoring and beautician courses. What could be the reason?

I am sure every woman out there wants to get some more out of life. Learning different trades is good but mastered only by a select few, so isn’t it time that we explore other options which could give our tatrakshikas a better sense of self appreciation and self confidence to live their life with self-worth, respect and dignity?

Having experienced personally the spark for learning and the enthusiasm, to move out of mundane household chores, among these ladies I’m sure a little bit of innovation can revolutionise their lives.

CGWWA has been most supportive towards the cause
for woman empowerment in every field but probably there is a further need to focus more on self defense, health and fitness in today’s scenario.

While art and culture are timeless, today’s woman needs to defend herself from the atrocities of society and what better than introducing self defense courses for our women. It is extremely important to sensitize the women on the rising number of crimes around us and the need to learn self defense not only for themselves but also for their near and dear ones. A thought goes “The best protection any woman can have...is courage.”

Another aspect which presents a challenge to each one of us is health. Most women are on their own when it comes to providing healthcare to children and looking after the elderly. Conducting first aid training camps with complete hands on training to attend to emergencies like fractures, burns, electric shocks and in some cases even heart attacks can have a huge impact on the self confidence of individuals. These life skills can make a world of difference to our community. Bu giving these women the confidence that they can make a difference to someone’s life by knowing the right way of doing things goes a long way in enhancing their self esteem.

Activities such as yoga and meditation are already a part of our system. Including team games, sports (indoor and outdoor) could also bring out a lot of hidden talent and pent up energy ensuring that our ladies are healthier and fitter. Team sports help develop friendship and improve relationships, they also help us appreciate different abilities of our team members and lead to an overall improvement in social interaction skills. Providing an infrastructure and sports equipment to encourage ladies to indulge in sports on a regular basis will help promote health, fitness and team spirit. Team activities (including walkathons) and sports can be conducted on a regular basis to lend exposure to women to learn new sports.

Our former president (late) Dr. Abdul Kalam said, “Where there is righteousness in the heart, there is beauty in the character. When there is beauty in the character, there is harmony in the home. When there is harmony in the home, there is order in the nation. When there is order in the nation, there is peace in the world.”

To make the nation healthy happy and prosperous, we need to begin from our homes. Healthy, happy and righteous women are the backbones of their families. If the women in the families are happy and well informed, it will filter down to other members of the family. Healthy living coupled with courses on health and nutrition, personality development, and career counseling, can lend a complete makeover to the lives of our women.

There are numerous possibilities to enhance the lives of women around us, but for a beginning, promoting health and fitness as an absolute necessity should be a priority towards a healthy and happy Coast Guard community.

AMBITION WITHOUT HOPE IS LIKE A BIRD WITHOUT WINGS

Many individuals are not satisfied with their position in life. I, for one, am not. I’d like to be more economically secure. I’d like to be more influential. I’d love to have a “bully pulpit,” a platform through which I could share my thoughts and speak to a large number of people.

I’d like these things. I don’t have them. I don’t know that I ever will. But I aspire to them. My ambitions are directed towards these ends. And these ambitions provide me hope. Ambition without hope is like a bird without wings. So, for me, I believe this lack of satisfaction is healthy. I continue to aspire. I continue to believe that I’m growing and taking positive actions to lead me along.

While some look at successful people with envy, that envy may in some ways be misdirected. It doesn’t take much effort to find examples of successful people who are miserable. Alcoholism, drug abuse, divorce and even mental disease seem all too often to go hand in hand with success.

Why does this phenomenon exist? Why do individuals who seem to have everything struggle so? Why do they seem to lose focus and purpose in the midst of, what looking in from the outside, appears to be success?

The reason is, or the reasons are, of course, never simple. However, one reason for many is that they have lost the hope that resides within their ambition. They have achieved their goal(s), and thus find themselves without directional purpose.

It is a bit like climbing a mountain. You dream about it. You plot your course, carefully choosing which face you will climb. You map out the particular trails you will use. You undertake all the preparations that will ultimately help you make it to the top.

After reaching the summit and making it back down safely, some are satisfied with their achievement and go on with their lives. Others choose another mountain and start all over again. Some, however, having achieved their goal, find themselves aimless. They reached their objective and find themselves with nothing to work toward.

For every Howard Hughes, there is someone like Donald Trump. Hughes was consumed by his success, spending the last part of his life as a drug-ridden recluse. Trump has made millions, gone broke and made millions again and again. He continues to have ambition. With his narcissistically fuelled ambition, he continues to have hope. Another hotel, airline, casino, office building, cheesy reality show and now the Presidency.

Without focus and a healthy self-awareness, the time spent while in route to your goals can be brutal. Individuals who are driven can be very critical of themselves along the way. I know I am. Periods of optimism can be interrupted with bouts of doubt and self-deprecation.

Sometimes you can go through long periods of time with no apparent signs of progress and, unfortunately for many, periods wherein your success reverses direction. It’s difficult to remind yourself during these times that both progress and failure can take the form of character.
development. Goals can lead to a direction in life. A direction in life can lead to purpose. And ambition along with its close hope can drive positive activity and small victories along the way to your primary objective.

A person with hope is a person with a healthy attitude toward life. Hope gives you something to live for. So don’t lose your ambition. If you never achieve your ultimate objectives in life, continue to work toward them. Establish objectives between where you are and where you want to be so you can celebrate the successes along the way.

And if you do achieve your “ultimate objective” take time to celebrate and savor the success. Then come up with another one.

**RELEVENCE AND ROLE OF FEMALE IN TODAY'S GLAMOUR BIZ**

The centrality of gender equality, women’s empowerment and the realization of women’s rights in achieving sustainable development has been increasingly recognized in recent decades. Linking gender equality and sustainable development is important for several reasons.

First, it is a moral and ethical imperative to achieving gender equality and realizing the human rights, dignity and capabilities of diverse groups of women.

Second, it is critical to redress the disproportionate impact of economic, social and environmental shocks and stresses on women and girls, which undermine the enjoyment of their human rights and their vital roles in sustaining their families and communities.

Third and most significantly, it is important to build up women’s agency and capabilities to create better synergies between gender equality and sustainable development outcomes. Women’s knowledge, agency and collective action are central to finding, demonstrating and building more economically, socially and environmentally sustainable pathways to manage local landscapes, adapt to climate change, produce and access food, and secure sustainable water, sanitation and emergency services.

Today the female develop themselves more as the world population developed. They maintain step to step to develop themselves in every field like media, industry, social and business. Chanda kochar, Sushmita Sen, Anurudhati Bhattacharya and many more female gives a role model for the next generation. Today the world salutes the female gender and accepts them.

VICTIMS OF TECHNOLOGICAL ABUSE

Tonight I missed a shot with nostalgia because of myself.

I’ve become such a slave to my phone that the flashing colours in the sky could not, would not bother me.

Everything except for the device shining in my palms was blocked out like a voice I didn’t want to hear in the first place, Except I DID want to hear it.

I want know about everything that is happening around me without burying my face so deeply into Google to find the answers I’m searching for.

Nothing ever happens to me because I’m too busy in the comfort of my own home, upon my own couch, on my own phone worrying about the next Facebook status and whether or not it will be entertaining or in need of a dose of an opinion that is my own.

I recognize that I have my own personal “cell”-mate that will follow me wherever I go as long as I don’t forget it on my kitchen counter.

I am shackled to my cell phone.

It takes me in handcuffs daily, arresting me at my own free will.

A policeman of such small character, yet so many brains. And I already know my rights.

I already know my rights because I’ve researched them enough times with my mobile text book to have them memorized.

You have the right to post a status, anything you say can and will be taken out of context.

You have a right to an opinion, if you do not have an opinion one will be appointed to you by your desire to impress those whom share a friendship with you.

I am a servant to technology.

It’s as though it is a part of my anatomy.

If it’s not one item of electronics it’s another and it has my full undivided attention.

As connected as we are, we have all become disconnected. No one talks anymore.

Word of mouth has become word of texting.

Important pieces of information are shared via the internet because it’s easier to get it out there all at once instead of saying it multiple times.

I sadly succumb to every chime I am beckoned with as it demands I answer whomever has interrupted the surfing and scrolling and sharing and liking and commenting and posting...

I put my phone down in disbelief.
Now tell me, “What’s on your mind?”

ALWAYS BE HAPPY

Whether we feel happy or unhappy is totally dependent upon each one of us. In a similar way, we cannot make others happy, as this choice is left to every individual. You can find joy in big as well as small things in life.

Only if we are joyful and happy, we can set a good example for the people, we come in contact, or our friends and families. The secret of feeling good is to feel good by a conscious effort. The better you feel, the more you get out of your life. If we want to be happy, contented and self–fulfilled, we must practice the same, like a surgeon, who attains excellence in his or her chosen field, only by practice and constantly doing the same procedure again and again.

Our happiness does not depend upon our possessions or the position we enjoy in our life. It depends upon how we think of ourselves and our life. Happiness lies in our thinking, working and living harmoniously with our values. It lies in convincing ourselves that we should expect the best out of everything, with a positive attitude.

The advantage of positive thinking is that a positive thinker will put behind failures and move to better and higher goals. On the contrary, a negative thinker will keep on imagining failures and why a thing cannot be done. This choice, as to how we will spend our lives, is available to each one of us.

THE SILVER MOON

When the night falls
I look up to the sky
A shiny thing
Shines and glows
But to me it looks like a ball

At time it’s a ball
Sometime it’s a boat
People call it a task
To me it shines and gazes

I ask my papa
I want the moon
He ways study well
You will go there soon
It’s a wonderful thought
I will grow up and became a navigator

DOSA FOR WOMEN

INGREDIENTS
½ cup urad dal (split black lentils)
1 tsp fenugreek (methi) seeds
½ cup bajra (black millet) flour
½ cup jowar (white millet) flour
½ cup ragi (nachni/red millet) flour
½ cup whole wheat flour (gehun ka atta)
Salt to taste 3 tsp oil for cooking

PREPARATION
1. Combine the urad dal and fenugreek seeds in a deep bowl and soak it for 2 hours in enough water.
2. Drain well and blend in a mixer till smooth using approx. ¾ cup of water.
3. Transfer the mixture into a deep bowl, add the bajra flour, jowar flour, nachni flour, whole wheat flour, salt and approx. 1 ¾ cups of water and mix very well using a whisk. Cover with a lid and keep aside to ferment overnight.
4. Next day, mix very well again.
5. Heat a non-stick tava (griddle), sprinkle a little water on the tava (griddle) and wipe it off gently using a muslin cloth.
6. Pour a ladleful of the batter on it and spread it in a circular motion to make a 200 mm. (8") diameter thin circle.
7. Smear ¼ tsp of oil over it and along the edges and cook on a medium flame till the dosa turns brown in colour and crisp from both the sides.
8. Fold over to make a semi-circle or a roll.
9. Repeat with the remaining batter to make more dosas.
10. Serve immediately with sambhar.

Congratulations to all CGWWA members on accomplishing 40 successful years of functioning. It definitely makes each one of us proud and happy to see effective team spirit among our members and conveners of various committees. It is indeed an unforgettable pleasure for a mother to see her child growing from a new-born to an adult. A similar experience is felt on seeing this young and beautiful wing of the youngest Defence Services (CG) become what it is today.

As I sit to write about it on completion of its fourth decade, I feel it should be rightly called 40 years young, because in our present times, fruition starts at the helm of 40.

“Great Oaks from acorns grow”, aptly describes the growth of the Coast Guard Wives Welfare Association (CGWWA), from an informal group of ladies to what it is today. The seeds of CGWWA were sown in Delhi in 1977 with the formation of interim Coast Guard within the Navy. However, it formally came into existence on 29 November, 1994 when it was registered as “Tatrakshika” and promulgated a constitution of its own. Since then CGWWA has grown into a multi-role organisation rendering yeoman service to its members. CGWWA supplements the efforts of the Indian Coast Guard in the areas of community welfare and development, particularly with regard to the families.

While the men in white brave the high seas, soar through the skies or prowl the dark silent depths of the ocean, their families are assured of support and care from CGWWA. Being a voluntary organization CGWWA follows an ‘open door’ policy for active participation by members, at any stage, in any of its programmes. It is an organisation set up, run and managed by the wives of Coast Guard Personnel.

The motto of CGWWA is ‘Self Help’ which is very appropriate in present times, wherein we need to determine our destiny through our own efforts. Every member voluntarily contributes her time, talent and skills towards improving the quality of life within the Coast Guard community. The Coast Guard extends the needed encouragement and support for programmes as it lays a great emphasis in the well-being of the families. This organization operates on an all India basis and is headed by the wife of the Director General, Indian Coast Guard based at New Delhi. The wives of the Regional Commanders coordinate CGWWA activities within the respective Commands and are designated as Regional Presidents. The range of programmes of the Association covers most areas of concern for the woman of today, from home and children to jobs and careers. There is no conflict between women who have opted for professional work and those who have stayed at ‘home’- each one has a very vital role to play in all aspects of life of the community and society.
History:

Let us peep into the history of how it grew from a humble beginning initiated by Mrs Kaka Sharma, the wife of First Commander Coast Guard (west) at Mumbai began with conducting welfare meetings at her residence. Despite distances to commute with people staying at different places in Mumbai suburbs, there was an unstringing will and determination to do something for our own community and society in general. This informal setup gradually began to expand covering the other two regions, Chennai and Port Blair which were also established along with the establishment of the Indian Coast Guard. Taking cue from similar organisations, functioning in Army, Air Force and particularly the Indian Navy, the organisation started taking its shape. It was now being controlled from the Central Headquarters at New Delhi. It was in 1994, during the tenure of Mrs Kohli, the then President Tatrakshika, that the organisation got registered. With consecutive change of command, the stewardship of CGWWA experienced different hands. Achievement was heartily welcomed when Mrs Kamala Singh in March 2001 took over as the next President Tatrakshika, as the first CG lady to be at the helm of affairs followed by Mrs Sushila Paleri, the next CG lady in Feb 2006. With the growth of service, two more regions, Gandhinagar and Kolkata were established in 2009 and 2012 respectively. This also added two more Regional Presidents to the CG fraternity. The description of CGWWA logo which was designed in 1996, showing three faces of women representing the initial three regions was changed to “Cohesiveness for working together to improve the quality of life in Indian Coast Guard”.

Initially the treasurer, the editor and welfare members including President Tatrakshika made the body of the organisation. With passing time and considering the needs of the changing society, more wings were added to CGWWA. Today, in its full fledged state it includes the secretary, the editor, the Treasurer, Suruchi, Saksharta, Sanjeevani, Sneha, Suraksha, Srishti and Sanchar respectively. Under able leadership CGWWA has done tremendous work. Each wing has its own objectives in the larger interest of CG fraternity.

To keep the connect amongst the CGWWA community, quarterly newsletters (Tatrakshika Sandesh) are published and exchanged between the various regions in order to share and implement the best practices adopted by various regions.

Realising the need to canvas the vivid imagination and share such experience on a common platform, “URMI”, The Tatrakshika magazine which was initially published independently in East and West regions, was centralized in 2007 and is now published annually on the occasion of Tatrakshika Day.

The Golden Era of Tatrakshika began in Feb 2016, When Mrs. Urmila Singh assumed the charge of President Tatrakshika. She initiated and brought the further advancement in the organisational approach as well as functioning of CGWWA. She provided the needed steadying hand, consolidating the repaid progress. She is a tireless and inspirational leader of CGWWA. During her stewardship the Regions (Commands) experience greater autonomy and CGWWA units are set free to devise their own programmes to suit local needs within the extensive CGWWA Charter. The essence of CGWWA Charter is to further the interests of the Coast Guard Family. Presently under the aegis of
Mrs Urmila Singh, the President, it is moving further and benefitting the Coast Guard community as well as rendering helpful approach to the civil community at large. Ever since its existence, CGWWA has assiduously worked to support a wide array of philanthropic causes.

The strength of the Coast Guard comes from its personnel and the strength of the personnel lies in their community ethos. Further, the strength of the Coast Guard community comes from the CG family and the strength of the Coast Guard Family comes from the wife of a coast guardian. She keeps home and hearth together when the husband is away attending to demanding professional requirements on the frontline and strength to lend a helping hand to others in the community that needs it. The Coast Guard Wives Welfare Association has always stood up to the challenges of times in proving their mettle for improving quality of life and welfare of community at large.

With compassion, courage and conviction, this unique service of the nation has been truly able to contribute to the people, be it in moments of delight or despair. It has taken upon the responsibility of creating an environment of excellence with exclusivity. The Coast Guard Wives Welfare Association works perseverently to be at par with the demands of a changing society. For instance, it actively conducts the activities and events related to current issues like “Swacch Bharat”, “Save Environment”, “Beti bachao, Beti padhao”. It is committed to strive even further and create even bigger milestones in the future.

ऐ नेरी नाकाम जिंदगी

यूं ही बाल तनहा अकेला
होकर मायूस इस संसार में
कर रहा था मैं बातें
अपनी नाकाम जिंदगी से
कि ऐ नेरी नाकाम जिंदगी तूने मुझे दिया क्या है
जो भी बाहा पाना उससे छीन लिया तूने
जिस राह पर भी पानी मंजिल मुझे
उस राह में होकर ही दिये तूने
एक खुशी को तरसता रहा
मगर गम ही गम बरसता रहा
ऐ नेरी नाकाम जिंदगी
तभी नेरी जिंदगी मेरे सामने आ गयी
और बोली ऐ नेरी राह के मुसाफिर
tू क्यों होता है मुझ पे नाराज इतना
पहले ये बता कि तूना मेरे लिये किया क्या है
कि काँटों पे टू चला नहीं
और फूलों की है चाहत तुझे
कि गिर कर तू कभी संभला नहीं
और मंजिल लाने की है चाह तुझे
कि तपती धूप का ऐसास नहीं
और चाहिए सुख की छांव तुझे
और जाते-जाते नेरी जिंदगी मुझसे बोली
'कि खुद की नाकामियों को नाकाम जिंदगी का नाम न दे,
कि पहले कर खुद पे मरोसा कि मंजिल को है पाना तुझे,
जो अगर फिर भी न मिले मंजिल तुझे,
तो नाकाम जिंदगी का मुझे नाम दे, मुझे नाम दे'।।

मैं, आप लोगों के साथ एक बेहद मामिक, लोगों की आंखें खोलने वाली बात शेयर कर रहा हूँ। एक रात एक ऐसा वाक्य हुआ, जिसने मेरी जिंदगी के कई पहलुओं को छू लिया। शाम के करीब 7 बजे होंगे, मोबाइल बजा। उठाया तो उठर से रोने की आवाज आई और मैंने शांत कराया और पूछा कि भाभी जी आखिर हुआ क्या? उठर से आवाज आई-आप कहां हैं और कितनी देर में आ सकते हैं? मैंने कहा आप परेशानी बताइये। और ‘भाई सहाब कहां हैं? माताजी किस घर? ’ आखिर हुआ क्या? उठर से केवल एक रट थी कि आप आ जाइये। मैंने आश्वासन दिया कि कम से कम एक घंटा लगा। जैसे-जैसे पूरी घड़ी घड़ी उड़ा।

dेखा तो भाई सहाब (हमारे मित्र जो बक्सल हैं) सामने बैठे हुए हैं। भाभी जी रोना-चीखना कर रही हैं। 12 साल तक एक भी परेशानी है 8 साल की बेटी भी कुछ नहीं कह पा रही है। मैंने भाई सहाब से पूछा कि आखिर क्या बात है। भाई सहाब कोई जवाब नहीं दे रहे थे, फिर भाभी जी ने कहा ये देखिए तलाक के पेपर, ये कोट्ट से तेयार करके लाये हैं। मुझे तलाक देना चाहते हैं। मैंने पूछा- ये कैसे हो सकता है, इतनी अच्छी फैमिली है, दो बच्चे हैं, सब कुछ सेटल्ड है। प्रथम दृष्टि में मुझे लग ये मजबूत है, लेकिन मैंने बच्चों से पूछा दादी किफार हैं, बच्चों ने बताया पापा ने उन्हें 3 दिन पहले नोएडा के बृहस्पति में शिफ्ट कर दिया है। मैंने घर के नौकर से कहा मुझे और भाई सहाब को चाय पिलाओ, कुछ देर में चाय आयी। भाई सहाब को बहुत कोशियों की पिलाने की, लेकिन उन्होंने नहीं पी और कुछ ही देर में वो एक मासूम बच्चे की तरह फॉट-फॉट कर रोने लगे। बोले मैंने 3 दिन से कुछ भी नहीं खाया है। मैं अपनी 61 साल की माँ को कुछ लोगों के हवाले करके आया हूँ। पिछले साल में मेरे घर में उनके लिए इतनी मुसीबत हो गई कि पत्नी (भाभी जी) ने कसम खा ली कि मैं माँ जी का ध्यान नहीं रख सकती। ना तो ये उनसे बात करती थी और ना ही मेरे बच्चे बात करते थे। रोज मेरे कोट्स से आने के बाद मां खुब रोती थी। नौकर तक भी अपनी मनमानी से व्यवहार करते थे। मैं ने 10 दिन पहले बोल दिया ‘बेटा तू मुझे ओल्ड एंज होम में शिफ्ट कर दे। मैंने बहुत कोशियों की पूरी फैमिली को समझाने की, लेकिन किसी ने मेरे साथ सीधे मुँह बात नहीं की।

जब मैं 2 साल का था तब पापा की मृत्यु हो गई थी। दूसरों के घरों में काम करके मुझे पढ़ाया। मुझे इस काबिल बनाया कि आज मैं बक्सल हूँ। लोग बताते हैं मैं कभी दूसरों के घरों में काम करते वक्त भी मुझे अकेला नहीं छोड़ती थी। उस माँ को मैं ओल्ड एंज होम में शिफ्ट करके आया हूँ। पिछले 3 दिनों से मैं अपनी माँ के एक-एक दुःख को याद करके तड़प रहा हूँ, जो उसने केवल मेरे लिए उठाये। मुझे आज भी याद है जब मैं दसवीं की परीक्षा में अपीलर होने वाला था। मां मेरे साथ रात-रात भर बैठी रहती। एक बार माँ को बहुत फीवर हुआ मैं तभी स्कूल से आया था। उसका शरीर गर्म था। तप रहा था। मैंने कहा माँ तुझे फीवर है। हंसते हुए बोली, अमी खाना बना रही थी इसलिए शरीर थोड़ा गर्म है और कुछ नहीं बस। लोगों से उठार माँग कर मुझे दिल्ली विवाहविधालय से एलाएली तक पढ़ाया। मुझे ट्रूशूलन तक नहीं पढ़ाने देती थी कि कहीं मेरा टाइम खबर ना हो जाए। कहते-कहते रोने लगे और बोल- जब ऐसी माँ के हम नहीं हो सके तो हम अपनी बीड़ी और बच्चों के व्या होंगे। हम जिनके शरीर के दुःखें हैं। आज हम उनको ऐसे लोगों के
हवाले कर आये, जो उनकी आदत, उनकी बीमारी, उनके बारे में कुछ भी नहीं जानते। जब मैं ऐसी माँ के लिए कुछ नहीं कर सकता तो मैं किसी और के लिए मला क्या कर सकता हूँ। आजादी अगर इतनी घायल है और माँ इतनी बोझ लग रही है, तो मैं पूरी आजादी देना चाहता हूँ। जब मैं बिना बाप के पल गया तो ये बच्चे भी पल जाएँगे, इसीलिए मैं तलाक देना चाहता हूँ। सारी प्रोपर्टी इन लोगों के हवाले करके उस ओल्ड ऐज होम में रहेंगा। कम से कम मैं माँ के साथ रह तो सकता हूँ और अगर इन्ते सब कुछ करके माँ आश्रम में रहने के लिए मजबूर है, तो एक दिन मुझे भी आखिर जाना ही पड़ेगा। माँ के साथ रहते-रहते आदत भी हो जाएँगी। माँ की तरह तकलीफ तो नहीं होगी। जितना बोलते उससे भी ज्यादा रो रहे थे। बाते करते-करते रात के 12:30 हो गये। मैंने भामी जी के चेहरे को देखा। उनके पास भी प्रणामिक और गलन से मरे हुए थे। मैंने झाड़वर से कहा अभी हम लोग नोएडा जाएँगे। भामी जी और बच्चे हम सारे लोग नोएडा पहुँचे। बहुत ज्यादा रिक्वेट करने पर गेट खुला। भाई साहब ने उस गेटकीपर के पैर पकड़ लिए, बोले मेरी माँ है, मैं उसको लेने आया हूँ। चौकीदार ने कहा क्या करते हो साहब। भाई साहब ने कहा-‘जहाँ सारे सबूत सामने हैं तब तो आप अपनी माँ को न्याय नहीं दिला पाये, और को क्या न्याय दिलाते होंगे साहब।’ इतना कहकर हम लोगों को वही सोकर वह अन्दर बचा गया। अन्दर से एक महिला आई, जो बारह थी। उसने बड़े कातर शब्दों में कहा-‘2 बजे रात को आप लोग ले जाके कही मार दें, तो मैं अपने ईश्वर को क्या जवाब दूंगी?’ मैंने सिस्टर से कहा आप विवाह करिये, ये लोग बहुत बड़े पश्चाताप में जी रहें हैं।’ अंत में किसी तरह उनके कमरे में ले गई। कमरे में जो दृश्य था, उसको कहने की स्थिति में मैं नहीं हूँ। केवल एक फोटो जिसमें पूरी फैमिली है और वो भी माँ जी के बग़ल में, जैसे किसी बच्चे को सुला रखा है। मुझे देखा तो उनको लगा कि बात न खुल जाए, लेकिन जब मैंने कहा हम लोग आप को लेने आये हैं, तो पूरी फैमिली एक-दूसरे को पकड़कर रोने लगी। आसपास के कमरों में और भी बुजुर्ग थे। सब लोग जागकर बाहर तक ही आ गए। उनकी भी आखें नम थी। कुछ समय के बाद चलने की तैयारी हुई। पूरे आश्रम के लोग बाहर तक आये। किसी तरह हम लोग आश्रम के लोगों को छोड़ पाये। सब लोग इस आशा से देख रहे थे कि शायद उनको भी कोई लेने आए। राते भर बच्चे और भामी जी तो शांत रहे, लेकिन भाइ साहब और माताजी एक-दूसरे की भावनाओं को अपने पुराने रिस्टर पर बिठा रहे थे। घर आते-आते करीब 3:45 तक हो गया। भामी जी भी अपनी खुशी की चाबी कहाँ है ये समझ गई थी। मैं भी चल दिया लेकिन राते भर वो सारी बातें और दृष्टि घूमते रहे माँ केवल माँ है। अपने माला-पिता को मरने से पहले ना मारें...

हमारी सोच

हर चीज के देखने का दो नजरिया होता है, पहला यह कि दुनिया में कुछ भी चमकता नहीं है और दूसरा
यह है कि दुनिया में हर चीज चमकता है। लेकिन चमकता पर यकीन करें तो हम सब में हमेशा एक आशा
जिदा रहती है कि कोई शक्ति कभी विपरीत परिस्थितियों में मदद करने के लिए अवश्य आयेगी। यहाँ
चमकता का मतलब यह नहीं है कि भोजन थाली से उड़ेगा और हमारे मुंह तक पहुंच जायेगा बलिक चमकता का मतलब
यह है कि अपने लिए कुछ अच्छे की उम्मीद रखना। किसी काम में सफल होने के लिए आवश्यक है कि
सफलता पाने के प्रति एक सकारात्मक उम्मीद जरूरी है। वैज्ञानिकों ने भी यह सिद्ध कर दिया है कि हमारी
सफलता बहुत कुछ हमारी सोच पर निर्भर करती है। जब कोई किसी काम की निराशाओं नजरिये से शुरु
करता है तो उसके लिए वह पूरे मन से अपना और कोई भी काम पूरे मन से नहीं करने पर
सफलता की संभावना उतनी ही कम हो जाती है। वास्तव में हम अपने लिए जो सोचते हैं, वही हमें दिखाई
देता है। हम अपने लिए जो महसूस करते हैं वही हमारे चेहरे पर दिखता है। जब तक कलाकार अपने अंदर
एक सुंदर मूर्ति की कल्पना न करें तब तक वह खूबसूरत मूर्ति का निर्माण नहीं कर सकता है। लेकिन वह
कलाकार मूर्ति बनाने से पहले यह सोच ले कि उससे कुछ भी अच्छा नहीं बन सकता तो मूर्ति का बनाना असंभव
सा हो जाता है। अत: हमें जीवन में वेदन करने के लिए अच्छी और सकारात्मक सोच को विकसित करना
चाहिए। किसी व्यक्ति की जिम्मेदारी उसकी सोच पर निर्भर करती है।

डिप्रेशन को दावत दे रही, सोशल नेटवर्किंग साइट्स

मोबाइल फोन और इंटरनेट की दुनिया ने आज हमारे लाइफ स्टाइल को बदल कर रख दिया है। एक और इन संसाधनों से दुनिया में क्रांति सी आ गयी है तो दूसरी ओर हम अपने को हर तरफ से मोबाइल, इंटरनेट से धरे हुए पाते हैं। सोशल नेटवर्किंग साइट्स ने तो मानो हमें पूरी तरह से अपने वश में कर लिया हो। रास्ते में चलते-चलते भी लोगों की अंगुलियां मोबाइल फोन पर ही रहती हैं।

कुछ यू कह लीजिए कि इस मोबाइल फोन, फेसबुक और इंटरनेट पर एक अलग ही दुनिया है। ऐसे लोगों की दुनिया जिसमें हम कभी मिले भी नहीं होते, दुनिया के किसी भी कोने में रहने वाला आदमी भी हमारा दोस्त बन जाता है, जबकि हमको अपने वास्तविक दुनिया के बारे में कुछ खबर नहीं होती है। हमारे पास इसना भी समय नहीं होता है कि हम अपने आस-पास में रहने वाले लोगों के बारे में, उनके सुख-दुख के बारे में जान सकें। हम इन सबके आदी हो रहे हैं। हमारे जीवन में एक अकेलापन है, जो धीरे-धीरे हमारे अंदर डिप्रेशन को पैदा कर रहा है। शुरुआत में हमको इसका पता नहीं चलता लेकिन जब बाद में खुद को परेशानियों से घिरे पाते हैं, तब ये फेसबुक, क्लाउड, ट्रिब्यूट के दोस्त काम नहीं आते, ये डिप्रेशन हमें सजा की तरह लगाने लगता है।

आज का दृश्य ये है कि युवा वर्ग में खुद को विदास, हाईप्रोफाइल दिखाने की होड़ मारी है। हर किसी के अंदर खुद को दूसरों से अलग दिखाने की एक आग भड़क रही है। भले ही फेसबुक, क्लाउड, ट्रिब्यूट पर दोस्तों के नाम पर हमारी एक लंबी लिस्ट क्यों न हो, लेकिन असल जिंदगी में अकेलापन और डिप्रेशन फैला हुआ है। जब हमारे फेसबुक स्टेटस को अच्छे-खराबे लाइफ स्टाइल या सकारात्मक कमेंट नहीं मिलते तब तक हमको शांति नहीं मिलती और अगर एक भी लाइफ नहीं मिलता या नेगेटिव कमेंट मिलता है तो हम निराश होने लगते हैं। डिप्रेशन होने लगते हैं। हम ये सोचने लगते हैं, यह जीवन हमारे लिए महत्वपूर्ण नहीं रह गया है।

अब बस... जागरूक होने की जरूरत है।

माँ

तड़प-तड़प कर भारत माता, हम से आज ये कहती है।

यहां रही सोने की बिड़िया, आज कहाँ वो रहती है।

धम-धम करते बम सारे, हम पर आज क्यों हैंसते हैं।

फूट आ गयी काम हमारी, इसलिए ये फटते हैं।

तड़प उठी ये भारत माता, जब कोई बम हो फूटा।

गिरी झोपड़ी या गिरा महल, इस माँ का दिल भी टूटा।

भारत माता का आँचल, मत लाल करो तुम खून से।

मानवता से प्यार करो, नहीं खून से और जुनून से।

बस इतना कहना है मुझे, दुनिया के ठेकेदारो से।

जीवन से तुम करो प्यार, मत करो प्यार हथियारो से।

मत करो प्यार हथियारो से....।

एक विचार

राम-राम जपते हो बंदे, राम का मतलब क्या जानो तुम।
राम-राम....................

बच्चा एक बिलखता देखा, राह में ठोकर मारे हो तुम।
राम-राम....................

वो जाति-पाति को माने नाहि, झूठे बेर शबरी के खाए, फिर काहे ढुंढकारे हो तुम।
राम-राम....................

विमाला की इच्छा पर राज भी त्यागा, फिर जननी को बेघर क्यूं करते हो तुम।
राम-राम....................

सब कुछ छोड़ के वन को गए थे, पाई-पाई क्यूं संभाले हो तुम।
राम-राम....................

शिला को भी वह इंसान बनाते, फिर पत्थर क्यूं बन जाते हो तुम।
राम-राम....................

सत्य की राह में कुदम गंवाया, मोह माया में क्यूं जकड़े हो तुम।
राम-राम....................

अत्याचार को जड़ से मिटाया, अन्याय से क्यूं हाथ मिलाते तुम।
राम-राम जपते हो बंदे, राम का मतलब क्या जानो तुम।

महागाई की मार

कमरा तो एक ही है, कैसे चले गुजारा बीबी गई थी मायके, लौटी नहीं दोबारा कहते हैं लोग मुझको, शांतिशुदा कु०वारा रहने को घर नहीं है, सारा जहाँ हमारा।

महागाई बढ़ रही है, मेरे सर पे चढ़ रही है चीजें के भाव सुनकर, तबीयत बिगड़ रही है कैसे खरीद में, मैं खुद हुआ छुआ रहने को घर नहीं है, सारा जहाँ हमारा।

शुभचितकों मुझे तुम नकली सूरा पिला दो महागाई मुफकलिसे, मुक्ति तुरंत दिला दो शूरकंप जी पढ़ाया, अपनी कला दिखाओ भाड़े हैं जिनके ज्ञाना, वह घर समी गिराओ इक झटका मारने में, क्या जाएगा तुम्हारा रहने को घर नहीं, सारा जहाँ हमारा।

जिसने भी सत्य बोला, उसको मिली न रोटी कपड़े उतर गए सब, उसे लग गई लँगोटी वह ठंड से मरा है, दीवार के सहारे उमर लिखे हुए थे, दो वाक्य प्यारे-प्यारे सारे जहाँ से अच्छा, हिन्दौस्तां हमारा हम बुलबुले हैं इसकी, यह गुलशितां हमारा रहने को घर नहीं है, सारा जहाँ हमारा।

नारी

नारी तुम माँ भी हो, माँ जायी भी,
प्रियसी और हरजाई भी।
पत्तम में बन जाती हो तुम,
अपनी भी और पल भर में परायी भी।

श्रद्धा नव और पुरातन की,
मानव मन का विश्वास हो तुम।
करुणा-प्रेम का सागर हो तुम,
अभिलाषा का आकाश हो तुम।

तुम ही नव रशिम प्रातः की,
सिंदूरी किरण शाम की हो।
तुम रुकमणी वंशी वाले कृष्ण की,
तुम जनकनदिनी सीते राम की।

तुम निशवल माँ की ममता हो,
वैधित हँड का संबंध हो।
तुम हारे हुए का सहारा हो,
तुम विजयी बीर का बल हो।

पर अब न व्यर्थ गवाओं जीवन को,
बनकर पुरुषों का साया तुम।

बनकर वृक्ष की छाया तुम।

मैं नारी

जब नारी में शक्ति सारी
फिर क्या नारी है बेचारी
नारी का जो करे अभिमान
जान उसे नर पशु समान
हर आँगन की शोभा नारी
उससे ही बसे दुनिया सारी
राजाओं की भी जो माता
क्यों हीन उसे समझा जाता
अबला नहीं नारी, है सबला
करती रहती जो सबका भला

नारी को जो शक्ति माना
सुख मिले बात सच्ची जाना
क्यों नारी पर ही सब बंधन
वह मानती नहीं व्यक्तिगत धन
सुता बहू कभी माँ बनकर
सबके ही सुख-दुख को सहकर
अपने सब फर्ज निभाती है
तभी तो नारी कहलाती है।

कौन हूँ मैं?

घनघोर घटा और रात अंधसी।
घर में है न बिजली और न है दिया बाती।
इंद्र के वज्र ने सब किया है ध्वस्त।
डुब दिया सब धरती को मूसलाधार बीछारों ने।।

फिर भी मैं एकाग्र हूँ।
सज्ज हो और सबल हूँ।
संतानों का धैर्य और विश्वास हूँ।
शक्ति और आशा, मैं पति का अभिमान हूँ।।

पति विरह से मैं न घबराती।
न मुझको कोई डर सताता।
संकट मेरे न पथ विचलाते,
मैं व्याहता हूँ तटस्थक जवान की
तटस्थका मेरा नाम कहलाता।।

अर्थ जीवन का?

जीवन है एक रेतगाढ़ी, जो ना समझ वो है अनाजी, 
रोशन आते-जाते हैं, मुसाफिर मिलते-बिस्तुड़ते हैं। 
कुछ हाय पकड़कर चलते हैं, कुछ साथ छोड़ जाते हैं।
मंजिल पहुँचा जो वो है खिलाड़ी, जो ना समझ वो है अनाजी।।

जीवन है एक कहानी, बिखर गया वो जिसने ना मानी, 
किससे तो बनते रहते हैं, तपर्य मिलते रहते हैं।
कुछ ठोकर देकर जाते हैं, कुछ खुद ही सिखाकर जाते हैं।
खुश होकर दो कुछ कुर्बानी, बिखर गया वो जिसने ना मानी।।

जीवन है एक पहेली, जिजिकी भर हर किसी ने खेली, 
सुलझाने की बहुत की कोशियों, पर खट्टा न हुए कभी वे गरदेंगे।
धूप में झूली बहुत ही बारिश, पर लोड़ न पा या कभी वे बरदेंगे।
सुख-चौथ की खोज में सारी जिजिकी उठड़ा डाली, आखिर खाली ही रही मेरी झोली।।

जीवन है एक संघर्ष, जहाँं दिन-रात का है उत्कर्ष, 
कभी नीचे गिर जाते हैं, कभी आसमान छू लेते हैं।
फिर भी ऊठ खड़े होते हैं, शिकायत ना कभी करते हैं।
जिजिकी कम हो रही हर वर्ष, जहाँं दिन-रात का है उत्कर्ष।।

कों ना कभी, झुकों ना कभी, साथ ढेरे कोई ना आयेगा कभी, 
राहों पर चलना है अंजले, अभी तो बहुत दूर है मंजिले।
सुख-दुख के यहाँ लहर रहेंगे में, हर पल को मेरे दोस्त तु खुलकर जी ले।
कल क्या किसी ने देखा है कभी, लम्हां जो बिता लौटेगा ना कभी।

पैसे की खातिर

एक दिन तितली के बेल फूल पर
सोच रही थी जैसे।
तभी वहाँ से निकला बालक
लेकर हाथ में पैसे।।

बोला-तितली दी बतलाओ
मिले चुकी भी कैसे।
तुम्हें तुम्हारे पास नहीं हैं
मेरे जैसे पैसे।।

तितली बोली सुन हे भैया
कभी ना सुख दे पैसे।
वही जगत में दुखी बहुत है
पल्ले जिनके पैसे।।

देखो नम में बिन पैसों के
उड़ते पंध्री सारे।
खिले हुए हैं फूल बाग में
बन में पौधे प्यारे।।

दुखी इन्हें पाकर है कोई
बिन पैसों के मारे।
भला वही जो मिले न पैसे के
धन-धन भाता हमारे।।

सोचा उसने सच पैसे के
खातिर होते रगड़े।
इन्हीं के खातिर बढ़ते हैं
जीवन के सब रगड़े।।

नारी

यदि स्वर्ग कहीं है पृथ्वी पर, तो वह नारी उर के भीतर,
दल पर दल खोल हड़ताल के अस्तर
जब विठलाती प्रसन्न होकर
वह अमर प्रणय के शतदल पर।

मादकता जग में कहीं अगर,
वह नारी अधरों में सुखकर,
क्षण में प्रणालों की पीड़ा हर,
नव जीवन का दे सकती वर
व अधरों पर धर मदिराण।
यदि कही नरक है इस भू पर,
तो वह शी नारी के अंदर,

वह अंध गर्म में चिर दुस्तर
नर को ढकेल सकती सत्र।

जीवन की आपाधारी में कब वक्त मिला

जीवन की आपाधारी में कब वक्त मिला
कुछ देर कही पर बैठ कभी यह सोच सकूँ
जो किया, कहा, माना उसमें क्या बुरा भाला।

जिस दिन मेरी चेतना जगी मैंने देखा
में खड़ा हुआ हूँ इस दुनिया के मेले में,
हर एक यहाँ पर एक मुलाने में भूला
हर एक लगा है अपनी अपनी दे-ले में
कुछ देर रहा हकका-बकका, भौचकका सा,
आ गया कहीं, क्या करूँ, यहाँ जाओँ, किधर जाओँ,
फिर एक चरम से आया ही तो धक्का सा
मैंने भी वहाँ शुरु किया उस रेल में,
क्या बाहर की ठेला-पेड़ी ही कुछ कम थी,
जो भीतर भी भावों को उझापोह गया,
जो किया, उसी को करने की मजबूरी थी,
जो कहा, वही गन के अंदर से उबल चला,

जीवन की आपाधारी में कब वक्त मिला
कुछ देर कही पर बैठ कभी यह सोच सकूँ
जो किया, कहा, माना उसमें क्या बुरा भाला।

मेला जितना भड़कीला रंग-रंगीला था,
मानस के अंदर उतनी ही कमजोरी थी,
जितना ज्यादा संजित करने की ख्याति थी,
उतनी ही छोटी अपने कर की झोरी थी,
जितनी ही बिसे रहने की थी अभिलाषा,
उतनी ही रेलों तेज ढकेले जाते थे,
क्रय-विक्रय तो ठपड़े दिल से हो सकता है,
यह तो भागा-भागी की छीना-छोरी थी
अब मुझसे पूछा जाता है क्या बतलाओँ
क्या मान अकिंचन विखराता पत्थर पर आया,
यह कौन रतन अनमोल मिला ऐसा मुझको

जिस पर अपना मन प्राण चौँछावर कर आया,
यह थी तकदीरी बात मुझे गुण-दोष न दो
जिसको समझ था सोना, वह मिटटी निकली
जिसको समझ था अँखोँ, वह मोटी निकला।

जीवन की आपाधारी में कब वक्त मिला
कुछ देर कही पर बैठ कभी यह सोच सकूँ
जो किया, कहा, माना उसमें क्या बुरा भाला।

में कितना ही मूलूँ, भटकूँ या भरमाउँ,
हे एक कही मंजिल जो मुझे बुलाती है,
कितने ही मेरे पाँव पड़े ऊँचे-नीचे,
प्रतिपल वह मेरे पास चली ही आती है,
मुझ पर विष्णु का आभार बहुत-सी बातों का।
पर मैं कृतज्ञ उसका इस पर सबसे ज्यादा-
नम आले बरसाए, धरती शोले उगले,
अनवरत समय की चक्की चलती जाती है,
मैं जहाँ खड़ा था कल उस थल पर आज हूँ वही,
कल इसी जगह पर पाना मुझको मुश्किल है,
लें मापदंड जिसको परिवर्तित कर देती
केवल छूकर ही देश-काल की सीमायें
जगे मे मुझ पर फैसला इसे जैसा भाए
लेकिन मैं तो बेरोज़ सफर में जीवन में
इस एक और पहलू से होकर निकल चला।

जीवन की आपाधारी में कब वक्त मिला
कुछ देर कही पर बैठ कभी यह सोच सकूँ

योग अपनाओं रोग भगाओं

योग से हर रोग दूर होता है, बुद्धापा एवं मोटापा दूर होता है। मन में अच्छे विचार आते हैं, अपने पराये के भाव मिट जाते हैं।

समरसता विचार में आती है, समभव व्यवहार बन जाती है। काम, क्रोध, लोभ, मोह, सब दूर हो जाते हैं। मानव जीवन आपके सार्थक, बन जाते हैं।

जवानिं में बाल झड़ने से डरते हैं। बुद्धापे में खाई लगानी नहीं पड़ती है। दूर का खतरा भी, बचावा है योग। इंजेक्शन का डर, दूर भगाता है योग।

लुप्त से सब विचार लुप्त मन हो जायेंगे, निराशा अभिलाषा के फर्क मिट जाते हैं। अद्भुत अकल्पनीय अविश्वसनीय परिवर्तन, समाज में आयेगा। अपना गौरवान्वित इतिहास, पुनः लौट आएगा।

आओ मिलकर योग अपनायें, रोग मुक्त भारत बनायें।

बरगद का पेड़

एक बरगद का पेड़ था गाँव के बीच में, चारों तरफ सीमेंट से बना एक सरिकल जिसके फर्श की विकलागेह उसकी उम्र बताती थी दिनभर छाँव में लोग बैठा करते थे। ताश की बाजी लगाते हुए तो कुछ बुजुर्ग विलम फूकते हुए अक्सर उस सीमेंट के गटटे पर नज़र आते। मानो परिवार हो कोई, आखिर आजकल कोन सुनता है घर में बुजुर्ग मिल बैठकर पुराने दिन जीते थे वह ‘तीन कंटिंग बाकी चार फुल’ पाँस ही चाय की दुकान की ओर आवाज़ लगाते थे। एकता और भाईचारे की एक मिसाल की तरह था वो पेड़। यही नहीं... शाम ढ़ते वही पेड़। सैकड़ों पंचियों का घर हुआ करता था... सूरज ढ़लते ही पंचियों की चहल-पहल बढ़ जाती तरह तरह की बहचहाहट कानों में संगीत की तरह चुंगली...

हवा के झोंकों में पत्तों की आवाज़ दिल में सुखुन भर देती... सुना है गाँव में तरककी हो रही है कोई पक्की सड़क बन रही है वहां से बीच में आ रहा वो पेड़ कल उसे गिरा दिया... गिरा दिया वो भाईचारा वो प्रेम... जो चाय की चुसकियों में तो कभी हंसी के ठहरवों में सुनाई पड़ता था... साथ ही गिरा दिया सैकड़ों पंचियो का आसरा जो शाम को घर लौटने वाले थे... भीड़ देखी मैंने ढ़लती शाम को। मूर्छित पड़े उस पेड़ के चारों ओर आज भी शोर था पंचियो का... कुछ उसकी टहनियों पर बैठकर उसे फिर से जगा रहे थे कुछ दूर बैठ आसू वहा रहे थे। कुछ के लिए वो पेड़ था... और कुछ के लिए दुनिया।

कामकाजी तथा घरेलू महिलाओं को बराबर समान

बहुधा हम देखते हैं कि किसी महिला का समाज में परिवर्तन देने समय यह भी उल्लेख किया जाता है कि वह कामकाजी है या घरेलू। घरेलू महिला का अर्थ होता है जो घर में रहकर पति और बच्चों की देखभाल करें और कामकाजी महिला वह है जो घर से बाहर भी कुछ निष्ठुर घंटे कार्य करती है। बाहर निकलकर काम करने वाली या पिर कहा जाता कामकाजी महिलाओं का समाज में कुछ अधिक आदर से देखा जाता है और घरेलू मानी जाने वाली महिलाओं के मन में कहीं न कहीं इस बात के प्रति रोश भी होता। यहाँ भावाविक रूप से एक प्रमाण उठता है कि क्या घरेलू महिला कामकाजी नहीं होती है?

घर में रहने वाली महिलाओं के लिए माना जाता है कि उनके पास काफी समय होता है। घर का काम कुछ ही घंटों में समाप्त कर शेष समय में वे आराम कर सकती हैं या अपना मनोरंजन कर सकती हैं, लेकिन व्यवहारिक रूप से ऐसा समय नहीं हो पाता है। घर पर रहने वाली महिलाओं से परिवारीजनों की कुछ अधिक ही अपेक्षाएं होती हैं, बाहर के रूप में घर के सबसे सदस्यों की यही संगठनी होती है कि सारा दिन घर पर रहकर क्या हमारे लिए कुछ भी समय नहीं निकला जा सकता है? लेकिन नौकरी करने वाली महिलाओं का एक निश्चित समय पर घर से निकलना होता है, इसलिए घर के सदस्य ही नहीं, बल्कि नौकर भी उनके समय अनुशार काम करने का प्रयास करते हैं। मेंज-जोल वाले अन्य लोग तथा पहाड़ी भी किसी अवसर पर उनकी गैर-मौजूदगी का बुरा नहीं मानते। इस तरह की कुछ सहूलियतें मिल जानें सो वे अपने समय का बेहतर उपयोग कर पाती हैं।

अधिकतर महिलाओं पर बच्चों की देखभाल और उनकी पढ़ाई का, घर की पूरी व्यवस्था संभालने का तथा माता-पिता की चिकित्सा तथा देखभाल का इतना अधिक मार हो जाता है कि उन्हें अपनी मूलभूत दैनिक जरूरतों के लिए भी पर्याप्त अवकाश नहीं मिल पाता है। समाज के बहुत से घरों में ये देखा जा सकता है कि एक गृहिणी के पास छोटे-बड़े कामों का इतना अधिक बोझ हो जाता है कि पूरा दिन भी उसके लिए कम पड़ जाता है। घर के सभी सदस्य अपने-अपने कार्यों में व्यस्त रहते हैं और गृहिणी अपनी पीड़ा या अकेलापन किसी के साथ बोट भी नहीं पाती है। घर वालों के उदासीन और उपेक्षापूर्ण रूपों के कारण ऐसे में कभी-कभी महिलाएं अवसाद और बिड़बिड़पन का शिकार भी हो जाती हैं। समाजशास्त्र में स्नातकोत्तर तथा एक एन.जी.ओ. की प्रवक्ता कमलजीत कौर का मानना है कि घर पर रहने वाली महिलाएं समाज के सातों दिन और दिन के चोटी से घंटे कार्य करती हैं और किसी भी मायने में बाहर निकलने वाली महिलाओं से कम मेहनत नहीं करती।

घर से बाहर निकलकर काम करने वाली महिलाओं पर भी कुछ कम दबाव नहीं होता। जहाँ घरेलू महिलाएं अपने तरीके से घर को चलाकर तथा पत-पत बढ़ते अपने बच्चों को देखभाल संतोष और सुख अनुमय कर सकती हैं वही कामकाजी महिलाएं चाहकर भी ऐसी नहीं कर पाती हैं। अपने कार्यस्थल पर संतोषजनक नहीं देने के साथ ही उसे पारिकालिक जिम्मेदारियों को भी बेहतर तरीके से निमाना होता है। एक औरत के मन में स्वाभाविक
रूप से अपने परिवार के प्रति प्रेम और जिम्मेदारी की भावना होती है, लेकिन समाज और परिवार दोनों ही बाहर निकलकर काम करने वाली कामकाजी महिलाओं को उतना जिम्मेदार नहीं समझते। अपनी ममता और कर्मचारी भावना को समाज के सामने नग्नवाड़ करने के लिए उसे अपनी पूरी शक्ति झोंक देनी पड़ती है साथ ही महिलाओं के वेतन का उपयोग करते हुए परिवार यह जताना नहीं मूल्यात्मक कि ये सब वे अपने खुशी और आजादी के लिए कार कर रही हैं और इसके साथ उन्हें अपनी घरेलू जिम्मेदारियां निमानी ही हैं। अधिकतम उद्देश्य और श्रम के कारण कभी-कभी अनेक प्रकार की शारीरिक और मानसिक परेशानियां भी उन्हें घेर लेती हैं।

घर पर रहने वाली महिलाएं हों या बाहर काम करने वाली, दोनों को ही अपने-अपने तरीके से पारिवारिक दायित्वों का निर्वाह करना होता है। जब घरेलू महिला अपने श्रम द्वारा परिवारीजनों को सुख देती है और उन्होंने उन्नति में योगदान देती है वही कामकाजी महिला अभिनव सहयोगी, देखकर पारिवारिक उन्नति में अपना योगदान देती है। समाज के बड़े दर्शक के लिए दोनों का ही अपना अलग महत्व है। माननीय रुपरेख के विकास के लिए दोनों को भी देश का मानक मात्र बनाकर करने का वकालत का है। अन्य कितने के समझने से पहले सब घरेलू महिलाओं को कामगार मानक मात्र वेतन दिये जाने का बनाकर का है। अन्य कितने के समझने से पहले सब घरेलू महिलाओं को कामगार मानक मात्र वेतन दिये जाने का बनाकर का है। अन्य कितने के समझने से पहले सब घरेलू महिलाओं को कामगार मानक मात्र वेतन दिये जाने का बनाकर का है। अन्य कितने के समझने से पहले सब घरेलू महिलाओं को कामगार मानक मात्र वेतन दिये जाने का बनाकर का है।

मैं तो जैसे भुल ही गयी थी गुनगुनाना
तुमने सिखालया दर्द में भी मुसूकराना
गमे जुड़ाई से तेरी कैसे आंख चुराऊँ कहो, तुम्हें मैं कैसे भुलाऊँ

मन खिंचता जाता है भावना की ओर

आयुर्वेद उपचार

आयुर्वेद ने बड़ी से बड़ी बीमारी का इलाज जड़ी-जड़ियों से किया है। आज आपको कुछ ऐसी चीजों के बारे में बताना जा रहे हैं, जिनके इस्तेमाल से आप डॉक्टर की फीस, घरेलू उपचार से बचा सकते हैं। सात बीमारियों की एक दवा- लहसुन, हल्दी और लौंग में अद्वैत मेडिसिन के गुण हैं। लहसुन के तीन टूकड़े दो चमच हल्दी और तीन लौंग को मिलाकर और मिष्रण को गुमगुमे पानी या दूध के साथ रोजाना रात को सोने से पहले लेने से आप कई बीमारियों से बच सकते हैं।

1. डायबिटीज का इलाज. इस मिष्रण से आपके शरीर का शुगर का स्तर भी कम होता है और टाइप 1. डायबिटीज में आपको असर दिखाई देगा।

2. साइनस ढीक करे. लौंग, लहसुन और हल्दी के मिष्रण से साइनस का इंफेक्शन कम हो जाता है, क्योंकि यह व्याया जनाव को टांकने और भारी नाक के रास्ते को खोल देता है।

3. गैसट्रायटिस को कम करता है. यह मिष्रण पेट में बनने वाले एसिड को बेहतर करता है और गैसट्रायटिस, पेट का फुलना और पेट दर्द से फायदा मिलता है।

4. वजन कम करने में मदद करता है. इस मिष्रण को लगतार लेने से, व्याया और खान-पान में नियंत्रण की मदद से आप वजन कम कर सकते हैं और स्वस्थ रह सकते हैं।

5. एलर्जी कम करता है. यह मिष्रण प्राकृतिक एंटीबायोटिक का काम करता है और इससे कई तरह की एलर्जी जैसे त्वचा की एलर्जी और स्वास्थ्य संबंधित एलर्जी से बचाव संभव है।

6. शरीर के अंदर के इंफेक्शन को ढीक करता है. इस मिष्रण में एंटी इंफालामेटरी गुण होते हैं। इसलिए यह इंफेक्शन और शरीर के अंदर के सूजन और जलन को कम करता है।

7. कोलेस्ट्रॉल के स्तर को कम करता है. इस मिष्रण से आपकी आर्टरी में जमा फैट घुल जाती है, जिससे कोलेस्ट्रॉल का स्तर कम हो जाता है।

आशाहीन लक्ष्य अर्थात् पक्षी विना पंख नहीं

उमीद अर्थात् सकारात्मक सोच निश्चय ही इस दुनिया का सबसे बड़ा घन है। सकारात्मक उमीद ही इस
dुनिया और सृष्टि की नियति है अर्थात् उमीद के बिना समृयति ब्रह्मांड और कायनत के बारे में सोचना भी एक
cोरी कल्पना मात्र है। हम अपने जीवन में किसी भी कार्य की शुरुआत अगर सकारात्मक उमीद के साथ करते
हैं तो परिणाम सकारात्मक होने की संभंजना रहती है। वही अगर हमारा कार्य उमीद विहीन है तो परिणाम
भी निर्त्तक आता है। उमीद हमारे जीवन का वह बीज है जो अगर दूढ़ और सच्चा हो तो उससे उत्तरन्न होने
वाला वृक्ष भी उत्तना ही मजबूत और फलदायक होता है। पंडित श्री राम शर्मा आचार्य ने लिखा है,

‘कुछ भी नही सत्यक होता जब सत्तम किए जाते है।

सत्तम का साहस के जब गति मय चरण दिये जाते हैं।’

उमीद ही वह घन है जिससे इस दुनिया और इस पर जन-जीवन का करोड़ों वर्षों से पनपने दिया है।
धर्म से लेकर विज्ञान तथा दुनिया का हर सिद्धांत भी उमीद के बिना अभूत है। आज मौजूदे जितनी भी जीवों
की प्रजातियाँ इस दुनिया में मौजूद हैं, सबने हजारों वर्षों से इस प्रकृति और वातावरण से अपने अस्तित्व के
लिए लगातार संघर्ष किया है। यही कारण है कि वे आज तक फल-फूल रही हैं। वही जिन प्रजातियों ने संघर्ष
नहीं किया उनका ही समापत हो गया। उमीद के बिना संघर्ष असंभव है। अतः संघर्ष की ग्राम शक्ति
उमीद ही है। चाहें वो भगवान श्री राम, श्रीकृष्ण, ईसा, मुहम्मद, बुद्ध, महात्मा या गुरुनानक हो सभी ने अपने
लक्ष्य के प्रति एकाग्र रहते हुए इस परिस्थिति में इस मानवता के अस्तित्व की सुखा हेतु कभी भी हर न मानते
हुए सत्तम किए। यही कारण है कि संसार एक नए इतिहास का गवाह बना। अगर इन महापुरुषों ने कठिन
परिस्थिति अने पर उमीद छोड़ दी होती तो इन्हें कोई भी याद नहीं रखता, न ही कोई इनके रास्ते पर चलता।
महर्षि वेदवास ने कहा है,

‘उद्यमेन ही सिद्धांती कार्यानि न मनोरथ्यः।

न हि सुपत्तिः सिंहस्य प्रविशस्ति मुखे मृगा:।’

परिश्रम से ही कार्य की सिद्धि होती है, मन की इच्छाओं से नही, जिस प्रकार सोए हुए सिंह के मुख में
मृगा प्रवेश नहीं करती।

उमीद की अनोखी कहानी- महान अमरीकी
उपन्यासकार मार्क ट्वेन ने कहा है उन्नीसवी
सदी दुनिया सिर्फ दो लोगों के लिए याद
रखेंगी पहला हेलन केलर और दूसरा
नेपोलियन बोनापार्ट।

हेलन एड्स्स केलर- हेलन एड्स्स केलर
एक अमरीकी लेखक, राजनीतिक कार्यकर्ता
और आचार्य थी। वह कला-सनातन की उपाधि
अर्जित करने वाली पहली बाँध और दृष्टिहीन थी। वो जन्म के तीसरे वर्ष में अंधी, गूंगी और बहरी हो गई लेकिन उन्होंने अपनी उम्मीद नहीं छोड़ी और उन्होंने अपने दम पर लड़कू विमान भी उड़ाया। उसने अपनी दृढ़ शक्ति इतनी मजबूत कर ली थी कि वो हवाओं के स्पंदन मात्र से प्रकृति के क्रियाकलाप को महसूस कर सकती थी। उन्होंने मन की ओँखों से दुनिया देखी और पूरी दुनिया में अपने महान कार्यों से विकलांगों के लिए सबसे बड़ी आवाज बने। उन्होंने दुनिया के विभिन्न देशों की यात्राएं की और अनेकों जगह व्याख्यान दिया।

नेपोलियन बोनापार्ट— वह अपनी छोटी सी दुकड़ी के साथ थका-मादा आल्पस के पहाड़ के नीचे खड़ा था। वहीं एक छोटी सी झोंपड़ी में एक बुढ़िया के पास पानी पीने गया।

बुढ़िया, ‘बेटा तुम किस उद्देश्य से यहाँ आए हो?’

नेपोलियन, ‘मैं अपने साम्राज्य को दुश्मनों से मुक्त करने जा रहा हूँ।’

बुढ़िया, ‘पर बेटा सामने तो आल्पस का बहुत ऊँचा पहाड़ है और इस दुनिया के इतिहास में कोई भी इन शिखरों को पार नहीं कर पाया है, जिससे भी ऐसा दुस्साहस किया वो वेमील मारा गया। अतः तुम यह विचार व्रज वो और वापस चले जाओ।’

नेपोलियन, ‘मैं अगर मैं इस ऊँचे पर्वत को पार कर अपनी मातृभूमि की तुलना कर पाया तो संपूर्ण संसार मेरी बहादुरी की प्रशंसा करेगा वही अगर मैं इस साहसिक कार्य करते समय मर जाऊँगा तो कम से कम तुम तो मेरी प्रशंसा करोगी ही।’

बुढ़िया उस बीर सेनानायक को देखती ही रह गयी। नेपोलियन अपनी सेना के बीच गया और बोला, ‘मित्रों आल्पस है ही नहीं। ये तो एक छोटा सा टीला माट है।’ फिर देखते ही देखते वो सारी सेना सहित आल्पस के दुर्गम शिखरों को पार कर गया और अपने साम्राज्य को आजाद कर लिया। जिस प्रकार शरीर के लिए प्राण आवश्यक हैं उसी प्रकार जीवन की हर गतिविधि के लिए उम्मीद आवश्यक है। अतः हमें उम्मीद कभी नहीं छोड़नी चाहिए।

वास्तु

घर एक मंदिर होता है। इस मंदिर में आने पर हमें सुकृत मिलता है। मन को शांति मिलती है। यह तभी होगा जब आप वास्तु संबंधित कुछ बातों को दर्शकमार न करते हुए इन्हें आजमाएंगे। वास्तुमंदिर ये बातें छोटी-छोटी होती हैं लेकिन कम बड़े करती हैं। कुछ वास्तु टिप्स भी आजमाएं और घर में खुशियां और समृद्धि का प्रवेश पाएं।

(क) घर के मुख्य द्वार पर कभी भी कोई शारीरिक चीज न लटकाएं। इससे कम भी रुकावट आती है।
(ख) घर में सफ-सफाई, कलर, पॉलिश आदि सब ठीक से रखे। इससे घर में सक्षारेखक ऊष्मा आती है।
(ग) घर की खिड़कियां एवं दरवाजों पर पर्दे खिले हुए रंगों बाले लगाएं। आप यहाँ गुलाबी, हल्का नीला, हरा आदि सकारात्मक रंगों का उपयोग कर सकते हैं।
(घ) घर में कभी भी एक सीधे में दरवाजे नहीं होने चाहिए।
(ड) घर में खिड़कियां सम संख्या में होनी चाहिए। सम संख्या यानी 4, 6, 8, 12, 16, 18 आदि। लेकिन ध्यान रखें सम संख्या में शून्य नहीं होना चाहिए। जैसे- 10, 20, 30, 40। नया घर बनवाते या खरीदते समय हमें कई बातों का ध्यान रखना चाहिए। ये बातें न होने पर आपके पारिवारिक जीवन, स्वास्थ्य पर नकारात्मक प्रभाव भी पड़ सकता है।
(च) किसी असफल व्यक्ति का मकान न खरीदें।
(छ) सबसे ऊपर की मंजिल का फ्लैट कभी न खरीदें।
(ज) घर में सूर्य का प्रकाश व प्राकृतिक हवा आवश्यक आनी चाहिए।
(झ) घर के मुख्य द्वार को सड़क से हटकर हटकर बनवाना चाहिए।
(ञ) यदि घर में दो दरवाजे हों, तो दोनों को एक साथ नहीं खोलना चाहिए।
(ट) (पी) आकार का मकान भी नहीं खरीदना चाहिए। ऐसा मकान हमेशा रोगों का कारण होता है।
(ठ) घर के बाहर छोटी बाउण्ड्री वॉल अवश्य बनवाएं। यदि हो सके तो हरी झाडियों की बाउण्ड्री वॉल जरूर बनवाएं। ऐसा करने पर नकारात्मक शक्तियां सीधे घर में प्रवेश नहीं करती हैं।
(ड) यदि मकान (दी) जंवजाल पर होंगे तो नकारात्मक शक्तियां जरूर काम करेंगी। यहाँ कभी भी कोई दुर्घटना हो सकती है। इस तरह की स्थिति से बचें। इन 13 उपायों को आजमाकर अपनी जिंदगी को खुशानुमा बनाया जा सकता है।

घर की नींव रखने से पहले इन बातों का रखें ध्यान

कारावास, अस्पताल व शम्शान के आसपास का मकान नहीं खरीदना चाहिए। आँड-तिरंगा, वेतनढीब, अनेक कोनों बाला मकान कभी नहीं खरीदना चाहिए।

समाज-सेवा

ऐसी मान्यता है कि मनुष्य योग्यता अनेक जनमों के उपरांत कठिनाइयों से प्राप्त होती है। मान्यता चाहे जो भी हो, परंतु यह सत्य है कि समस्त प्राणीयों में मनुष्य ही श्रेष्ठ है। इस पृथ्वी पर जन्म लेने वाले समस्त प्राणीयों की तुलना में मनुष्य को अधिक विकसित मस्तिष्क प्राप्त है जिससे वह उचित-अनुचित का विचार करने में सक्षम होता है।

पृथ्वी पर अन्य प्राणी पेट की भूख शांत करने के लिए परसपर युद्ध करते रहते हैं और उन्हें एक-दूसरे के दुःखों की कटई चिंता नहीं होती। परंतु मनुष्य एक सामाजिक प्राणी है। मनुष्य समूह में परस्पर मिल-जुलकर रहता है और समाज का अन्तर्गत बनाए रखने के लिए मनुष्य को एक-दूसरे के सुख-दुःख में भागीदार बनाना पड़ता है।

अपने परिवार का भरण-पोषण, उसकी सहायता तो जीव-जंतु, पशु-पक्षी भी करते हैं परंतु मनुष्य ऐसा प्राणी है, जो संपूर्ण समाज के उत्थान के लिए प्रत्येक पीढ़ित व्यक्ति की सहायता का प्रयत्न करता है। किसी भी पीढ़ित व्यक्ति की नि:स्वार्थ भावना से सहायता करना ही समाज-सेवा है।

वस्तुतः कोई भी समाज तभी खुशहाल रह सकता है जब उसका प्रत्येक व्यक्ति दुःखों से बचा रहे। किसी भी समाज में यदि चंद लोग सुविधा-संपन्न हों और शेष कष्टमय जीवन व्यतीत कर रहे हों, तो ऐसा समाज उन्नति नहीं कर सकता।

पीढ़ित लोगों के कष्टों का दुःखभाव स्पष्टः संपूर्ण समाज पर पड़ता है। समाज के चार संपन्न लोगों को आस-पड़ोस में यदि कष्टों में रोते-बिलखते लोग दिखाई देंगे, तो उनके मन-मस्तिष्क पर भी इसका बुरा प्रभाव पड़ेगा। चाहे उनके मन में पीढ़ित लोगों की सहायता करने की भावना उत्पन्न न हो, परंतु पीढ़ित लोगों के दु:खों से उनका मन अशान्त अवश्य होगा।

किसी भी समाज में व्याप्त रोग अथवा कष्ट का दुःखभाव समाज के संपूर्ण वातावरण को दूषित करता है और समाज की खुशहाली में अवरोध उत्पन्न करता है। समाज के जागरूक व्यक्तियों को संपूर्ण समाज के हित में ही अपना हित दृष्टिगोचर होता है। मनुष्य की विवेकता है कि वह अकेला जीवन व्यतीत नहीं कर सकता।

जीवन-पथ पर प्रत्येक व्यक्ति को लोगों के सहयोग की आवश्यकता पड़ती है। एक-दूसरे के सहयोग से ही मनुष्य उन्नति करता है। परंतु स्वामी प्रवृत्ति के लोग केवल अपने हित की चिंता करते हैं। उनके हेदय में संपूर्ण समाज के उत्थान की भावना उत्पन्न नहीं होती। ऐसे व्यक्ति समाज की सेवा के अध्योप छिद्र होते हैं। समाज में उनका कोई योगदान नहीं होता। समाज सेवा के लिए त्याग एवं परीक्षक की भावना का होना आवश्यक है। जीव-मुनियों के हमारे देश में मानव-समाज को आरम्भ से ही परीक्षक का संदेश दिया जाता है।
रहा है। वास्तव में परोपकार ही समाज-सेवा है।

किसी भी पीड़ित व्यक्ति की सहायता करने से यह सक्षम बनता है और उसमें समाज के उत्थान में अपना योगदान देने की योग्यता उत्पन्न इस प्रकार समाज शीघ्र उन्नति करता है। वास्तव में रोगग्रस्त, अभावग्रस्त, अशिक्षित लोगों का समृय उन्नति करने के अयोग्य होता है।

समाज में ऐसे लोग अधिक हों तो समाज लगता है। रोगी का रोग दूर करके, अभावग्रस्त को अभाव से लड़ने के योग्य बनाकर, अशिक्षित को शिक्षित ही उन्हें समाज एवं राष्ट्र का योग्य नागरिक बनाया जा सकता है। नि:स्वार्थ भावना से समाज के हित के लिए किए गए कार्य ही समाज की सच्ची सेवा होती है।

सम्य, सुशिक्षित के पथ पर अग्रसर समाज को देखकर ही वास्तव में हम सबको सुख-शांति का अनुभव प्राप्त हो सकता है। इस पृथ्वी पर जन्म लेने वाले अन्य जीव-जन्तुओं और मनुष्य में यहीं अंतर है। अन्य जीव-जन्तु केवल अपने भरण-पोषण के लिए परिश्रम करते हैं और निश्चित आयु के उपरान्त समाप्त हो जाते हैं। अपने समाज के लिए उनका कोई योगदान नहीं होता। परन्तु सामाजिक प्राणी होने के कारण मनुष्य समाज के उत्थान के लिए भी कार्य करता है। मनुष्य के सेवा-कार्य उससे युगों तक जीवित बनाए रखते हैं। कोई भी विकसित समाज सदा समाज-सेवकों का ऋणी रहता है।

वो सोलह श्रृंगार तुम्हारा

आज भी याद है वो दिन जब, तुम सोलह श्रृंगार करती थीं,
आँखों के रास्ते चलकर, सीधे मेरे दिल में उतरती थीं।
बिदिया तुम्हारे माथे की, चौंद को भी शर्मदा करती थीं,
मांग में सिंदूर की लकीर, मेरे होने की गवाही देती थीं।
मांग टीका भी ललात पे झुमकर, मेरे दिल की धड़कन बढ़ाता था,
काजल तुम्हारी आँखों का, खूबसूरती में चार चौंद लगाता था।

गले का सुंदर हार, दूर से ही चमकता था,
कानों में कर्ण-फूल, बालों के बीच झलकता था।
मेहदी तेरे हाथों की, मेरे प्यार में रंग रंगी थीं,
चुड़ीयाँ तेरी कलाई में, कई रंगों से सजी थीं।
नाक पे छोटी सी नथनी, मेरे होश उड़ा देती थीं,
उंगलियों की अंगूठियाँ, मेरा चैन चुरा लेती थीं।
उफा तेरी कमर पे कमरबंद, क्या दिलक्ष नजारा था,

बाजू पे बाजूबंद ने, मुझे दीवाना कर डाला था।
तुम जब चलती थी, तुम्हारे पायल बोल उड़ते थे,
बिछुए तेरे पैर में, मेरी नजरों में अटकते थे।

शादी का जोड़ा पहन, एकदम परी जैसी दिखती थीं,
तेरी इतनी खुशबू, मुझे मदोश बना दिया करती थीं।
एक बार फिर कभी, वही सोलह श्रृंगार कर आना प्रिये,
तेरे उसी दीवार को, तड़प रहा है ये दीवाना प्रिये।

कभी निम्न गगन है नीला, कभी घिरी स्थायित्व धन-माला।
सुख-दुख के बसंत-पटझं के खिलता- मुरझाता है जीवन।

tीखे शूलों की झाली पर फूलों सा हँसता है जीवन।
आशा और निराशा की चल लहरे जिसमे लहराती है।
कभी- कभी संघर्ष के भी तूफानी दृश्य दिखा जाती है।
विरह मिलन के फूलों वाली, उस सरिता सा बहता जीवन।

tीखे शूलों की झाली पर फूलों सा हँसता है जीवन।
कभी पिकीसा भर मर्दी में, मन विभोर होकर गाता है।
और कभी बुद्धि खा सा निषि में, राग व्यथा को दोहराता है।
अभ्यु-द्रष्ट के तितिर-विभा की धूप-छाँह सा मनुष्य जीवन।

tीखे शूलों की झाली पर फूलों सा हँसता है जीवन।

औरतें अजीब होती हैं।

लोग सच कहते हैं-औरतें अजीब होती हैं...
रात भर सोती नहीं, पूरा थोड़ा-थोड़ा जागती रहती हैं
नींद की स्थायी में उंगलियाँ डुबोकर दिन की बही लिखती,
टोलती रहती हैं दरवाजों की कुंडियाँ बच्चों की बादर, पति का मन।
और जब जागती सुबह तो पूरा नहीं जागती, नींद में ही भागती हैं
सच में, औरतें बेहद अजीब होती हैं।

हवा की तरह घूमतीं, घर बाहर... टिफिन में रोज नयी रखती कविताएं
गमलों में रोज बो देती आशाएं
पुराने अजीब से गाने गुनगुनाती और चल देती फिर एक नये दिन के मुकाबल
पहनकर फिर वही सीमायें खुद से दूर होकर ही सबके करीब होती हैं
सच में, औरतें सच में अजीब होती हैं।

कभी कोई खाब पूरा नहीं देखती, बीच में ही छोड़कर देखने लगती हैं चुले पर चढ़ा दूध...
कभी कोई काम पूरा नहीं करती, बीच में ही छोड़कर ढूंढने लगती हैं बच्चों के मोजे, पेसिल, किताब
बचपन में खोई मुक्ति, जवानी में खाओ पताश, मायके में छूट गयी स्तूप की गोटी,
छिप-छिपाई के ठिकाने वो छोटी बहन छिप के कहीं रोटी...
सहेलियों से लिए दिये चुकाए हिसाब बच्चों के मोजे, पेसिल-किताब
खोजती बंद करती खिलकियाँ क्या कर रही हो? सो गयी क्या? खाती रहती झिंकियाँ भी शौक से
जीती हैं, न ठीक से मरती हैं, कोई काम ढंग से नहीं करती हैं।
सच में, औरतें बेहद अजीब होती हैं।

कितनी बार देखी है... मेकअप लगाये, चेहरे के नील छिपाए वो कांस्टेबल लड़की, वो व्यूटीशियन,
वो भाभी, वो दीदी... चप्पल के टूटे स्ट्रैप को साड़ी के पॉईल से छिपाती वो अनुशासन प्रिय दीर्घ
और कभी दिख ही जाती है कोरोडोर में, जल्दी-जल्दी चलती, नाकूनों से सूखा आटा झाड़ते,
सुबह जल्दी में नहाई अस्पताल आई वो लेडी डॉक्टर
दिन अक्सर गुजरता है शहादत में, रात फिर से सलीब होती है...
सच है, औरतें बेहद अजीब होती हैं।

सूखे मौसम में बारिशों को याद कर के रोती हैं, उम्र भर हथेलियों में तितलियां सजाती हैं
और जब एक दिन बूढे सच्चाँ बसस जाती हैं, हवाएं सच्चाँ गुनगुनाती हैं
फिर जाएं सच्चाँ खिलखिलाती हैं तो ये सूखे कपड़े, कच्चा, पापड़, बच्चों और सब दुनिया को
भीगने से बचाने को दीड़ जाती हैं...
सच है, औरतें बेहद अजीब होती हैं।
WOMEN OFFICERS DON OPERATIONAL ROLE

In the modern world, there are no domains of work that women haven’t delved into. Many a male dominated work place has crumbled under the power of the women - her spirit and energy.

The Indian Coast Guard stands out as one of the first services in India to have realized “women empowerment” through the induction of women officers for sea appointment. Four women officers were recently trained for operating Air Cushion Vehicle, or Hovercraft as they are commonly known, and appointed onboard these craft. The sea appointment comes in addition to their presence in the aviation branch, where they have for long, been undertaking independent sorties.

The Coast Guard commenced induction of women officers in the General Duty and Aviation cadre nearly two decades ago, in 1997. At 125 officers to date, women officers constitute about 10% of the total strength of officers, a proportion that exceeds in comparison to other armed forces.

The women officers in the Coast Guard are employed at par with their male counterparts and shoulder equal responsibilities. Just as male officers, they too are posted at remote locations like Jakhau in Gujarat and Diglipur and Campbell Bay in the A&N Islands, etc.

The deployment of women officers in operations is a giant leap taken by the Indian Coast Guard towards empowerment of women in consonance with the government’s policy. These women officers are all excited about operational roles at sea and all set to carry out coastal reconnaissance, landing operations, and law enforcement at sea, besides search and rescue operations at short notice.

First Batch of ICG women officers onboard ACV
“BECAUSE I AM AMBITIOUS”

It all started in 1997 when Indian Coast Guard decided to commence the induction of women officers who now contribute to about 10% of the total strength of ICG.

These female faces of Indian Coast Guard have been marching shoulder to shoulder with male officers, be it the combat roles including pilots, observers or manning remote operating stations or logistics management to play a vital role in the coastal security mechanism.

In these pages of Urmi, we feel proud to present Commandant Priyanka who is a lady officer in Indian Coast Guard. She was interviewed by Mrs. Sayali Vaidya (in Sep 2016).

**Question 1** - Hi Priyanka, what motivated you to join Indian Coast Guard?

**Answer** - Since my childhood, I had the passion of wearing uniform. My role model was Smt. Kiran Bedi. For me, uniform represents pride, discipline and self respect & it bestows an authority to do something extraordinary for the nation.

**Question 2** - You had joined Indian Coast Guard in 1999. It has been almost 17 years in service. How do you feel about services?

**Answer** - When I joined Indian Coast Guard, there were only 13 lady officers in service. However, today, we have 120 of them. Earlier the charter of duties for women officers was restricted to logistics & administrative branch but today, women officers are going in operational billets, are being deployed on-board Hovercrafts, are taking on the role of Pilots and Observers on aircrafts.

Today we have reached to the rank of Commandant & share responsibilities that are at par with our male counterparts.

**Question 3** - Priyanka, it was the notion that defence service is the exclusive domain of men and women in service was unheard of. So, did you experience any difficulty in handling male staff under you?

**Answer** - Well, I had never experienced any difficulty in handling my men. Rather they are more respectful towards us, as service has ingrained in them self discipline & respect towards women.
In fact, I am proud to say many of my EPs & Civilians brought their daughter to me to guide them in getting into ICG. This shows that they visualize their daughters to become like us. This gives us a lot of satisfaction that our country is gradually accepting women in defence services.

**Question 4 - What message would you like to give out to our new generation?**

**Answer** - I would like to tell the present generation that there are no shortcuts in life. One has to work hard to make his/her own place. No free lunches are offered.

The service has achieved yet another milestone by employing women officers onboard afloat platform towards which the first batch of women officers are presently undergoing training on ICG Hovercraft.

**Sayali** - Thank you Priyanka and all the best for all your future endeavours.

**Priyanka** - My pleasure mam and thanks for your good wishes!

**CREATIVE INSPIRATION**

Today the ladies of Tatrakshika are making their presence felt in every walk of life, be it welfare, outreach or even penning down a book.

Mrs. Archana Sashi Kumar has been in the field of teaching since last 12 years. From her experience of teaching, she has penned down a science text book “The science Hub-3” for the students of Class II. It was indeed a humbling experience which she shared with us & wrote this book of knowledge for the young, budding & curious minds.

This book not only encompasses loads of pictures to enhance the imagination of the kids but also has a short story at the beginning of each lesson to kindle their thoughts & give it insight into the lesson that they are about to read & learn. Added to their each lesson has some ‘Science Tips’ & ‘Science Facts’.

The teacher’s manual assists the teacher & guides them to develop each lesson in a gradual & student friendly manner. This book is being used by many reputed school of Delhi & other states.

The book has simple language and is colourful with attractive pictures, easy activities and experiments. Each lesson imparts important values, life skills, picture based questions & some fun activities too. The book also ignites the young minds through High order Thinking (HOTS) question.

The book has been accepted by Lady Irwin School Defence Colony, Okhla Public School Jamia Nagar and one school in Uttam Nagar, Delhi.

We, the family of Tatrakshika, wish Mrs. Archana Sashi Kumar all the very best in all her future endeavours.
A FEAT ACHIEVED

YOUNG ACHIEVER PRIYANSHU,
SON OF SUSHIL KUMAR, PSE(ER)

In today’s world a balance between studies and extra curricular activities gives you a perfect 10. Wards of ICG are giving phenomenal performances in studies as well as sports. Priyanshu is one amongst them. He is a budding footballer and computer programmer.

Priyanshu participated in football competition in Khel Mahakumbh, a mega annual sports event organized by Government of Gujarat in Feb 2016. He and his team stood 3rd in the entire tournament out of the 65 teams that participated in this event. He received a cash prize of Rs. 5000/- by Gujarat Government, a bronze medal and certificate for achieving this feat.

Google adsense has registered his creation www.sarcasmite.in and declared him a young successful programmer.

We give him a perfect 10 for his achievements and wish him loads of good wishes for his future endeavors.
In recognition of his strong commitment and will towards safeguarding the marine environment and protecting human lives at sea, BM Das, U/Nvk (05666-H), was awarded the International Maritime Organisation (IMO) certificate of commendation for exceptional bravery at sea. This commendation is extremely prestigious as it is awarded to chosen mariners amongst all the seafarers in the world. The act of valor was performed against all the elements of nature with great sense of professionalism.

On 24 Jun 15, tasking of helicopter was necessitated by ICGAS Daman for Search and Rescue with first light of morning, for rescue of 14 crew stranded onboard MV Coastal Pride which was listing and subsequently sank in prevalent rough sea and weather condition. BM Das, U/Nvk was nominated as free diver for the mission.

Analyzing the urgency, BM Das, U/Nvk immediately prepared all the necessary SAR equipment and rushed to the SAR helicopter alongwith other crew for the rescue mission of saving 14 stranded crew members from the sinking motor vessel. Weather further deteriorated en-route and visibility dropped to less than 500 m due to rain. The aircraft reached over MV Coastal Pride at 0800 hrs which was listed to port with her port cargo deck awashed. The ship was rolling heavily due to rough sea state and very strong winds. All 14 crew members were standing on the starboard bridge wing and were waving for help. Without wasting any time, BM Das, U/Nvk immediately prepared himself for getting winched down on the deck of the distressed ship.

After getting winched down BM Das, U/Nvk swiftly gathered all survivors to safe position and made one of the crew to wear rescue strop and signaled the winched operator to immediately winch him up and subsequently helped other two crew to get winched up in the same fashion. As the aircraft proceeded to nearby safe landing area for dropping three survivors, BM Das, U/Nvk briefed the ship’s crew to move to starboard cargo deck so as to ease the winching up operations and also advised the crew to be ready to abandon the ship in the case it topples. In that dangerous condition, using his presence of mind, he quickly lowered the ships life raft so that in case of any eventuality the ship’s crew can safely board the life raft. As the aircraft again arrived overhead, BM Das, U/Nvk again quickly helped other three survivors to get winched up. In the meanwhile he kept on boosting the moral of the ship’s crew who were in trepidation. As the aircraft left for the dropping the survivors, he
sensed that the ship can topple at any movement and safely helped the crew to abandon the ship and board the life raft.

After ensuring that all the crew have safely abandoned the ship, he was about to evacuate himself but suddenly a strong swell of sea water toppled the ship towards the port side and washed away BM Das, U/Nvk into the sea. Using his training and willpower, the sailor kept himself clear of the ship and swam across the heavy sea to board a floating Gemini. He then rowed the Gemini towards survivors despite strong opposite currents and gusty winds. In the meanwhile the aircraft arrived overhead again and BM Das, U/Nvk helped survivors to get winched up safely. The aircraft with the help of BM Das, U/Nvk winched up all the survivors. He himself was the last person to be winched up. BM Das, U/Nvk thereafter stayed with the rescued personnel at Umargaon beach till the arrival of the emergency and first aid services.

Living up to the finest tradition of the mariners BM Das, U/Nvk has displayed exemplary bravery, devotion to duty decisiveness and concern for the humanity which resulted in saving 14 precious lives at sea in such rigorous conditions without caring for his own life and safety. His sound judgment, presence of mind, courage and perseverance helped in accomplishing the mission in tune with Coast Guard motto “We Protect” and brought laurels to the service.

BM Das, U/Nvk will be receiving his certificate of commendation at IMO Headquarters in London in a ceremony scheduled in Nov 16.
