Confirmation of Scholarship for wards of Indian Coast Guard Personnel

Dear Sir,

This is in response to your letter **AD/0103/Welfare CGP** dated 29 May, 2015 regarding our Captain Vikram Batra PVC Scholarship for Defence Personal.

On behalf of the School of Inspired Leadership, I am honored to confirm the scholarship for wards of Indian Coast Guard Personnel. We sincerely look forward to Indian Coast Guard Personnel and their families availing the Scholarship and seeking admission with the School Of Inspired Leadership as per scholarship policies.

Yours Sincerely,

Romila Chopra

Vice President – Marketing & Admissions

Section 1

SOIL , School Of Inspired Leadership

We aim to Build Inspired Leaders with Character, Competence and Enthusiasm. We offer one year full time Post Graduate Program in Management. Our two programs are

1. Business Leadership Program
2. Human Resource Leadership Program

Co-created by 32 leading companies

SOIL is co-created by a group of leading companies (TATA Steel, Mahindra & Mahindra, Infosys, Maruti Suzuki, ICICI Bank etc.) from across industry verticals that believe in SOIL and its value proposition. They partner with SOIL to design the curriculum, select and mentor students, present live case studies, guide students for Action Learning Projects and lead the placement process.

One-to-one mentoring by senior Industry Leaders

Every student is assigned a senior industry leader as a mentor, who guides them on realizing and achieving their learning and development goals with the help of Individual Learning Plans.

Individual Learning Plan (ILP) for every student

Students build an Individual Learning Plan (ILP) based on inputs from their Caliper profile (a leadership assessment test employed during the selection process) and Development centre report that enables them to focus on their unique assets and talents throughout the program.

Social Innovation Program (SIP) in partnership with 28 NGO's

To develop compassionate leadership, the students are made to work, one day a week, on projects assigned to them by 28 partnering NGOs. This also helps them to apply management concepts on real time problems.

Internships with reputed companies

SOIL has Internships with the Industry as a part of the curriculum design. It is meant to make the learning of the students more holistic by bringing in live learning situations.

Internationally-renowned faculty

Education at SOIL is driven by distinguished faculty who have taught and consulted across the world. They help build a real time global perspective of the business world, and explore new paradigms in learning and innovation.

Total learning hours equivalent to a standard 2-year MBA program

The curriculum is fast-paced, highly specialized and applies to latest trends of business and industry. Running the program six days a week accommodates same no of courses and almost same number of hours of a 2 year program. Hence, the short tenure helps young professionals to quickly get back in the changing business environment and apply their learning first-hand.
